Amanda Hazy Wins Outstanding Thesis Award

Congratulations to Amanda Hazy for earning the Outstanding Thesis Award for Spring 2015 by receiving perfect scores from all three committee members. She graduated with the class of 2015 and is now pursuing a dual doctorate (DVM and PhD) at Virginia Tech.

Her thesis “Gene Expression and Alzheimer's Disease: Evaluation of Gene Expression Patterns in Brain and Blood for an Alzheimer's Disease Mouse Model,” is at <http://digitalcommons.liberty.edu/honors/497/>.

Every semester, this award is given to the Honors student who scored the highest points on his/her Honors thesis. The student receives a plaque, and his/her name is added to the plaque kept in the Honors Suite commemorating all of the outstanding theses written over the years.
