**Read carefully!**

1. **Reading:** a) Each student is responsible for completing reading assignments **prior** to class. b) Keeping a loose leaf notebook of class materials is highly recommended. c) The schedule may change from time to time requiring adjustment of the schedule along the way. Changes to the schedule on the syllabus will be posted on Blackboard with the date of the change. Review items are related to specific test questions. Study questions are designed to help stimulate analysis.
2. **Participation** is an essential part of class. a) Textbook chapters, readings posted on Blackboard, and current events will be the subject of class commentary and occasional discussions. b) Students should be prepared to discuss readings and current events. c) Please focus your attention on the lectures and discussions in class rather than extensive note-taking.

## **IX. School Policies**

### Electronic Devices

The use of laptops in the classroom is a privilege and not a necessity. If you choose to bring a laptop to class on a regular basis, you are only allowed to use it for word processing, and not for checking e-mails or surfing the internet. If this privilege is abused, you will no longer be allowed to use your laptop in class.

You are not allowed to bring portable digital cameras to class, or any other type of photographing device. You are also not allowed to use MP3 players to record lectures, or any other type of recording device, either a peripheral or laptop microphone.

All cell phones must be turned off – there are no exceptions. You are not allowed to leave the class to answer a message or make a call.

### Plagiarism and Multiple Submissions of Papers:

Plagiarism is a serious offense and utilizing the work of others without proper citation is a clear violation of University policy. However, no clear directive has been established within the Helms School of Government as to the permissibility of a student submitting substantially the same paper to satisfy writing requirements in different courses.

Effective spring 2007, any writing assignment required for a Helms School of Government course must be an original composition drafted specifically for the individual course. When a course requirement in an upper division course builds upon a previously researched topic, and the student desires to utilize his/her prior submission as a foundational document for the new course assignment, he/she may bring a copy of the previous paper to the current professor. The professor will review with the student the additional research and writing elements needed to complete the current assignment without violating this policy.

### Christian Service:

For those students not already involved in Christian Service, see the professor for details and other information if interested.

### Disabilities:

Students with a documented disability may contact the Office of Disability Academic Support (ODAS) in TE 127 for arrangements for academic accommodations.
