

# Inside Out Apologetics: Engaging Cultural Narratives in Malaysia

*“I propose an Inside Out apologetic method that appeals for and defends Christianity as the better story among cultural narratives within the contemporary Malaysian context”*

1. Cultural narratives?

2. Affirm and challenge?

3. How does Christianity tell a better narrative?

*“I would become a Christian, but my parents will not allow...”*

*The Bible teaches to honor parents...*

*We obey our parents not because they said so, but because we belong to God*

*Greater eternal honor awaits from the heavenly Father who is greater than our earthly father!*
