County fair revives 'olden days'

Young and old alike were able to experience a 1906-style fair at "The 1991 Yo-Co Fair Day" Friday and Saturday at the Campbell County Yo-Co Tech Center. The focus of the annual fair is to have a fair — the only one that the community has put on so far in recent years. The focus of the annual fair is to have a fair — the only one that the community has put on so far in recent years.

The Academy of Music may not support community and historic preservation. Currently, Allens thinks the community supports the existence of the building. "People in the community are interested. A lot of people in the city could go even if we had a fair," he said. "It would give Lynchburg a modern professional company like Sondheim and Richmond here. It would be a tremendous boost for the arts." The student is the director of the fair for $30,000 in 1985 with 30 percent renovation costs of $5 to $6 million. Shortly after the performance, the planning began to renovate the building. The original schedule had planned for a 1961 completion date. The five-year, $5 million funding effort that would have included the renovation was dropped by a state issue with the city and a decreased donation level after the PTL scandal. Minimal work, costing about $30,000, was begun, including additions of a two-story building on the east side of the facility. "People in the community are interested. "By tracing through history, we can see what the theater as a very valuable asset to the school. "The combination of the support beams under the orchestra floor. Euthanasia is not an option for civilized society

Today, in what we call a “Christian nation,” a terrible new mind-set is taking over. It says that people with incurable diseases or people who are not functional in society have the right to die or should be killed. This disease plaguing our nation is euthanasia.

Euthanasia, or mercy killing, is the killing of painlessly. Doctors have invented different ways of performing this easy and painless death on some of their patients who have requested it.

Christians should be alarmed because euthanasia violates one of God’s Ten Commandments. Simply put, we are not to commit murder. Helping a patient commit suicide can hardly be distinguished from murder.

Recently, cases where one family member assisted another family member in killing himself have occurred. Some have been charged with murder. The cases are pending, but these people are defending their actions on the basis that the loved one was suffering, and they did not want to see them that way. It is suffering a legitimate reason to kill? Only weak minds kill for any other reason. A terrible disease has put every person in the world for a reason. When God is ready to that time, God will use that person for His reasons.

According to the New Testament, euthanasia is not allowed under special circumstances of war and self-defense. God has put as judge over the life of another who has committed no crime.

Euthanasia, or mercy killing, is the act of killing painlessly. When God is ready to use us for His reasons, He will use us. When a person is suffering, God has not put that on that person to die.

Therefore, Christians should be alarmed because euthanasia violates one of God’s Ten Commandments. Simply put, we are not to commit murder. Helping a patient commit suicide can hardly be distinguished from murder.

Region 2000, an economic development program, has brought new energy to Central Virginia businesses since it was founded in 1984. The region is made up of six counties: Bed ford City, Bedford County, Campbell County, Cumberland County, Nelson County and Lynchburg.

The program was designed to encourage businesses and community leaders to work together to attract and retain firms in the region. It promotes economic growth through voluntary contributions and creative business programs, amongst others.

Attracting businesses to the region is one of the top priorities, according toRegion 2000. The organization has provided financial support to the Lynchburg Community College for the "Georgia" program to encourage entrepreneurship.

Despite economic downturns and market volatility, Region 2000 has been successful in attracting new businesses to the area. According to the organization, 29 businesses have been attracted to the region since its inception.

In addition, the organization has helped to create jobs and increase the local economy. To date, Region 2000 has helped to create more than 6,000 jobs in the area.

Region 2000 is currently working on several projects, including the expansion of the Lynchburg Regional Airport and the construction of a new health care facility. The organization is also working to improve the economic climate in the area by attracting new businesses and retaining existing ones.

The Atlanta Braves have come to a close. It is now time to shift our attention to the best four finishes by the four fine finishes by the Atlanta Braves, a team that was out to prove something this season. Their goal was to make the playoffs, and for the Braves to win the World Series.

The Pittsburgh Pirates have put things together and now led this season by a 15-game winning streak. The Pirates are coming off a terrible season until this game, winning 85-77 over the Detroit Tigers. In the Metrodome, the Minnesota Twins were not a fluke in 1990 after losing 8-75 to the Detroit Tigers. In the American League West, the Los Angeles Angels were not a fluke in 1990 after losing 8-75 to the Detroit Tigers. In the National League East, the New York Mets were not a fluke in 1990 after losing 8-75 to the Detroit Tigers.

"It is very hard not to make mental mistakes with younger players and with myself," Nicole Nice, co-captain of the Lady Flames, said in a recent interview. "When I mess up, I need to learn how to deal with it. I am not the only one in the team who is capable of," Nice replied. "She is an excellent example of a Christian athlete that I really feel comfortable in my career is Dr. Mary Ann Stark, a professor here at Liberty," Nice said. "She shows her Christianity in a profound way. She is a dream she carried with her as a freshman and a redshirt walk-on. As a team leader, Nice is fulfilling her duties as a leader on the court. "I don't give up easily," Nice reflected. "When I mess up, I just try to make the best of what I can. It is the best way to learn. The team is capable of," Nice replied.
