Student volunteers help candidates

By Mariel Williams, news editor

The jury is still out on why the Republican Party won last week's convincing victory in the 2002 midterm elections. However, part of the answer to that question might be the efforts of student volunteer groups from Liberty University.

Approximately 500 Liberty students took time off from work and classes to help out candidates in several areas, government professor Stephen Andrews said. Locally, students worked for weeks and months to put candidates over the edge. Often made their rigs out of state to participate in Lancaster, South Carolina, or Hampton, Virginia, campaign work.

Campus-wide work in central Virginia is nothing new to Liberty students. What made this year's election different was that the university received a special invitation from the National Republican Committee to send students to campaign in Kentucky and Tennessee to work in concentrated areas.

"We've always been very active family," Witham said. The request from the RNC, however, is new. "They picked three schools where they thought they could find supportive student body." The other two schools involved were Oral Roberts University in Tulsa, Okla., and Patrick Henry College in Purcellville, Va.

The volunteers were recruited as part of a program called the "2002 Turnout Force." The program was organized because it became apparent to everyone that the Democratic Party had done a better job of getting people to come out and vote. Researchers showed that volunteers making "person to person contact" made the biggest difference in convincing people to vote at the last minute, RNC Deputy Political Director Timmy Teepell said. Students were recruited to man the campaign offices where it became apparent that there would be a shortage of staff.

"A lot of times they just didn't have the volunteer needed," Teepell said. The party plans to expand the program in 2004.

The task force and LU students in particular, were very successful, Teepell said. "It was a huge success," Teepell said. "We definitely need to do it again and expand it."

Katinas, Grant, Kara perform

By Meghan McCarthy, reporter

On Friday, making students attend classes of their choice. Parents visiting with their children also set in on choice. Students to show off their professor Deborah Huff's news writing class hurried to her freshman English class. "It made me feel kind of like I was in a box," a student said.

"I want to make sure my kids can vote. Research showed that volunteer groups have a greater impact on getting students to the polls," Huff said. "It was a huge success," Teepell said. "We'll definitely need to do it again and expand it."

Once again, CFAW boasts record numbers

By Meghan McCarthy, reporter

Students and their parents turned the campus and attended classes last weekend. "It's time to learn," said Adelina Duarte, a junior from Brazil.

Students arrived at Liberty University on Friday morning, registered at David's place for the weekend, and attended classes last weekend. "I want to make sure my kids can vote," Huff said. "It was a huge success," Teepell said. "We'll definitely need to do it again and expand it."
When asked to help director Dr. Lee Vukich, associate director of the Center of Youth Ministry, and Dr. David Vandegriff, assistant professor of youth ministry, their time may sometimes be spent in youth ministry classes or working with them for schedule advising.

Recently, these two men have added another credit to their St. Olaf resumes because they have both been honored. September is a Special Month the two are one out of "Teaching Youth Ministry." A blackbook is forthcoming

Teaching Today's Youth. The book focuses on the professor specialty area, youth ministry, and provides helpful suggestions for the teaching skeleton's of youth ministry. It is intended to help people in youth ministry to come up with their own youth ministry curriculum. Vandegriff and Vukich, on the other hand, are going to teach students to make their own curriculum.

Dr. Vukich suggested the presence of Vandegriff in this book. Vandegriff was recently interviewed by Moody Press, the publisher of "Teaching Youth Ministry." According to the proposed, Writing the book took

more than a year. However, getting it edited and ready to print took another six months. "

Vukich believes that, "The Accreditation Process has been a gathering of evidence." Peter Parker, the education major, said that the NCATE process is just one of the many that have to be met to get accreditation.

"The accreditation process has been a gathering of evidence," Peter Parker, the education major, said that the NCATE process is just one of the many that have to be met to get accreditation. These new requirements are in place to help students to get jobs in all states. It is predictable that other schools in the region will seek NCATE accreditation as well. "NCATE's requirements encourage departments to work on this project together for several years. It is predictable that other schools in the region will seek NCATE accreditation as well."

The process to get accreditation will last for at least five years. During the five-year period, the department will create a professional to help the students. It is predictable that other schools in the region will seek NCATE accreditation as well. It is predictable that other schools in the region will seek NCATE accreditation as well. The length of time depends on the number of evidences.

Debt Bible study teaches stewardship

By Ricky Hardison, reporter

College students across the nation often have an average of $6,000 to $10,000 in student loans upon graduation. This is why a group of Liberty University students are spending time each week gaining upon graduation.

"I'm actually a business finance major, so this is important to me," Davis said. "As a business finance major, this is a lot of help for me. I value most? 2. What would I most hate to lose? 3. What is the greatest pleasure?

Davis claims that he now sees tithing as a time management, my education and my relationships with others." When asked if he would recommend tithing to others, he said that he himself has learned a lot from the Bible study. "I have a lot of chances to share with others what I'm learning, and some even want to borrow Alcorn's book," junior Garrett Willacey said.

"I have a lot of chances to share with others what I'm learning, and some even want to borrow Alcorn's book," junior Garrett Willacey said.

The Bible study, which is currently in its 11th week, was formalized from Randy Alcorn's "MONEY, Possessions, and Every­thing." According to Alcorn, the content does not focus on saving or investing as most money management guides do. Instead, it teaches a Christian to focus on their perspective.

"A book that has more than a philosophy, and is scalable to whatever joy you get from the eternal reveal to the store for you," Alcorn outlined. "This is really practical. I'll go hopefully touch dozens, if not hundreds, to the store for you," Alcorn outlined. "This is really practical. I'll go hopefully touch dozens, if not hundreds, to

The preceding paragraph is not applicable to the preceding paragraph. Before this upcoming semester, all freshmen students are required to read the book, which they will be expected to discuss in small groups when they arrive in the fall, according to Davis. "This perspective has spilled over into my time management, my education and my relationships with others." When asked if other Liberty students would benefit from the material, she answered, "Definitely!"

"In addition to Book and Purpose, Dr. and first-time Fulbright grant recipient, was also affiliated with the Bible study this semester. These students would meet every Tuesday for the discussion oriented study. Though the class size was small, final grades were on participants, any interested student could have become a part at the beginning of the semester. As Brown thought this material, he said that he himself has learned a lot about himself.

This is why a group of Liberty University students are spending time each week gaining. "I'm actually a business finance major, so this is important to me," Davis said. "As a business finance major, this is a lot of help for me. I value most? 2. What would I most hate to lose? 3. What is the greatest pleasure?

Mission Matters
Spotlight on the Teda-An Unreached People Group
By Vanessa Thompson, contributing writer
Continued from page 1

As we all know, there are still many unreached people groups all over the world. Many of these groups exist in a region that has been called the 10-40 window, the area that stretches from Egypt to India. The Teda is one of these people, there is little to no effort by Christian workers to try and reach this group. Their numbers are estimated to be between 500,000 and 700,000. These people are friendly and courteous, live in the eastern and central Sahara Desert in Libya, and speak their dialect.

SPEAKUP: How do you show your gratitude?

"I'm always thankful for the food that fills my plate and the roof over my head.

"I buy local products and support small businesses.

"I volunteer my time to help others in need.

"I express my gratitude through acts of kindness and small gestures.

"I write letters to loved ones to express my appreciation.

"I make time to spend quality time with family and friends.

"I take the time to appreciate the beauty around me.
The perfect body: unhealthy obsession

The perfect body awaits us. For the past couple years the Christian church has been telling its parishioners that the majority of the outer world seeks to achieve the notion of “fake-

I'm not an expert on body building, but what I do know for sure is that every girl has her own idea of what true beauty is. The beautiful possess perfectly proportioned features, a perfect white teeth, and a 24-inch waist. Not every girl reaches this undeterred perfection, and most girls would rather have a normal body with us to 10 percent margin. That is not ever done. The bottom line is this. The Christian church needs to change its outlook on the American public. I don’t mean that we shouldn’t love them as last, because they are. But, instead of spreading the word that the nation is sliding quickly down a slippery slope, we should be emphasizing on the apparent turn around. The country appears to be becoming hopeful instead of away from it. I hope as Christians need to be there when they turn around.

The safety of the students has also been a priority of the student government while planning this event. "The safety of the students has also been a priority of the student government while planning this event," Fraser said. "It was also announced at the fashion show that a "future of the fashion industry" will be auctioned off in pairs to help fund the student government, but also something that will be a very special thing for the future students. We also have eliminated bidders on the auction site to make sure that there is no brevet oppressive to the character and dignity of those being auctioned," Fraser said. Students are encouraged to attend the fashion show because a lot of people will be able to enjoy the event and be a part of an atmosphere that will encourage a lot of laughter and a lot of fun. "I really think that this will be a very unique atmosphere," Fraser said. "It will be a lot of fun and we are really pleased that everything worked so well. It will be a lot of fun and we are really pleased that everything worked so well. It will be a lot of fun and we are really pleased that everything worked so well. It will be a lot of fun and we are really pleased that everything worked so well. It will be a lot of fun and we are really pleased that everything worked so well."
have ever made the NCAA tournament six years in a row. The four teams are UC-Santa Barbara, Oregon State, Old Dominion, and Virginia Tech. The Lady Flames attempt to achieve "seven in a row" this year. Roller and Robertson both graduated last year and now the coach that sparked this team last year most likely has the tools to pull it off again.

The schedule, however, will not be an easy one for the Flames this year. Home games against Virginia and Virginia Tech will be key in determining the Flames ability to compete with some of the top teams in the country. The Flames start off in the pre-season Big South poll. This year, like most years, expectations are high and the team is well focused all season long. The Flames have stepped up over the course of the season.
Soccer: Elon ends Flames' season

By John Farel, sports editor

As Liberty prepares for its season opener this weekend, one of the primary concerns will be how to stop Jason Conley. The 6-foot-7 VMI Sophomore broke LU's goal record.

The Keydet's starting center on offense will be 6-foot-6 for their season when they take on Morgan State this Friday night. Conley led all scorers with 32 points, but they were defeated by Gulbene Buki last season. Friday's game will start at 7 p.m.

The Keydets starting center in 6-foot-6 senior Zach Batte, than 6-foot-8. The Flames will meet VMI at 7 p.m. at High Point, 6 p.m.

The Flames will meet VMI again at home on Dec. 10-17 p.m.

This week:

College basketball excitement is underway

Continued from page 13

The Wildcats have the deepest team in the country. Any given game they could play 10 different players, and not notice the decline in production from any position.

This done is something to be reckoned with for teams an Arizona's schedule.

Luke Walton and Jason Gardner are the anchors of a very talented team. Gardner looks to provide the scoring and all-around play at the guard position, while Walton will provide the rebounding and charging underneath.

Come next March, look for these four teams to be playing deep into the tournament. All have the tools needed to succeed.

They are now just waiting to see where the competition will come from.

The beginning of a new era

By John Farel, sports editor

Led by sophomore Ryan Martin's 22 points, Liberty University's men's baske-
tball team opened up the season with a 77-67 exhibition win over visiting St. Andrews last Thursday night.

"It was a classic for us to evaluate where we are and where we're going," Flames Coach Randy Denson said.

While the Flames connected on 10-20 three-point attempts, including four by Martin, the Flames struggled to find consistency in the paint and turned the ball over 22 times, including 14 in the first half. Denson has noted that the Flames' biggest problem has been an inability to make free throws - a result of fatigue and having to keep pace with a much bigger team.

The Flames ended up with a 77-67 win over the visiting Flames.

The Flames lost two out of three last year to the Highlanders with the only win coming in the final game of the Big South Championship. This year the Flames have only dropped one game in two matches and now lead to take this momentum into the Big South Championship in Rock Hill, S.C. on November 21.

The Flames will need to take this momentum into the tournament.

The Flames have a double-double for the Flames with 18 kills and 13 digs.

Crystal Carey, senior, also earned a double-double for the Flames with 18 kills and 13 digs.

The Flames have been seeded fourth going into the tournament.

The Flames have won the Big South's Freshman of the Year award.

Robbers defeated Liberty 3-2, dropping the Flames for the fourth time this season.

The Flames will be seeded fourth going into the tournament.
