Falwell, others endorse new "Prince of Egypt"

By RICK BOYER

Editor in Chief

The Prince of Egypt, DreamWorks' biggest-budget animated film, is making its debut. Time magazine called it the best animated film of the year. The story of Moses, who escaped from Egypt, is a testament to his Jewish roots. According to his Jewish roots, he was an ideal candidate to bring the film to people who are not Christian. The movie was a huge success, earning $200 million in its first week. The film has received reviews from the national media, including the New York Times, USA Today, and Variety. The film has been praised for its visual effects, storytelling, and its message about the power of love and redemption. It has also been criticized for its historical inaccuracies, such as the use of the Hebrew language. The film's creator, Jeffrey Katzenberg, has expressed his pride in the film's creation and its impact on the audience. The film is expected to continue its success at the box office. The film's creators are proud of their achievement and believe that the film has something for everyone.

The bypass route will be constructed in phases, with the first phase expected to be completed in 2022. The project is expected to create jobs and stimulate economic growth in the region. Astronomers say Pluto may not be a planet

Astrophysics textbooks may soon be outdated as the International Astronomical Union mulls a debate on the status of Pluto.

The farthest planet from the sun is no longer the 11th by Earth's moon, making it an irregular object, leading some astronomers to call it an unexplained object, and others to say that it was discovered today, while others would be divided on its status.

The group expects a decision within months.

Nearly 2,000 Liberty students, faculty, staff and friends spend a week walking where Jesus walked

To walk where Jesus walked - that was the goal of nearly 2,000 Liberty students over Christmas break. The students, plus many others, joined in "Israel '99," to get college credit while seeing first hand the land of the Bible. I was one of them.

We took in the traditional sites of Christ's birth, death and resurrection, and Galilee, where he performed most of His miracles. Worship at the Garden Tomb marked the zenith of the trip with Jonathan Falwell, executive pastor at Thomas Road Baptist Church, speaking on the resurrection.

What really struck me was the lack of vegetation. Most of Israel is sand and rocks, with the Jordan Valley the only well-watered part of the country. The entire southern portion of Israel is a barren wilderness.

The streets we walked in the Old City of Jerusalem were the same narrow, winding paths that Christ walked, with buildings on both sides towering so high they shut out the light. The people, Jews and Palestinians alike, seemed friendly and accommodating, with both our tour group and with each other, despite news reports to the contrary.

To actually see these places lent a whole new meaning to the songs of the faith, and gave fresh color to Scripture. I came away with a whole new appreciation for the sacrifice Christ made.

Signs we're on our way

Every time you turn on your TV, or take a trip to your local church, you'll probably hear the majority of the preachings about the end times – the rapture and the end of the world. It's a topic that we can't seem to escape, especially when it comes to the Bible's prophecies.

But what if I told you that there are signs that suggest we are indeed living in the last days? What if I showed you that there are events happening around us that are not just coincidental, but are actually pointing towards the fulfillment of Bible prophecy?

But don't just take my word for it. Let's take a look at some of the signs that suggest we're on our way to the end of the world.

Sign 1: The Atlanta Falcons are Super Bowl XXXIII. No one in the sports world, at the beginning of this NFL season, would have predicted that the Falcons could make a run to the Super Bowl. And yet, there they were, winning the NFC South and a historic upset over the University of Florida Gators in December. At the time I was ready to take Super Bowl XL off the table, having lost all faith in the Falcons. The only team that could make me change my mind was the Falcons.

Sign 2: Michael Jordan, #1, is back and this time it's for all of those prophets out there that thought it was just a Phase that Jordan was going to try out Super Bowl Sunday.

Sign 3: Chris Chandler leads the Atlanta Falcons as quarterback. #1: Chris Chandler leads the Atlanta Falcons to Super Bowl XXXIII. No one in the sports world, at the beginning of this NFL season, would have predicted that the Falcons could make a run to the Super Bowl. Sign 4: Peanut Miller, or as many "loyal" Bulls fan there is that know him, will also be without the services of Dennis Rodman. Without Rodman, they certainly will not be as dominant as possibly before during this big November's Hoop.
