**LU actors promote campus play**

By Natalia Williams, reporter

The cast and crew of LU’s production of “The Scarlet Pimpernel” were on the road—all the way to the theater department! The trip was sponsored by a Costume and Wardrobe grant and directed by Linda Bell Cooper to bring the play to the Lynchburg community and church.

Cooper found herself at Springer Opera House, now the opening performance of “The Scarlet Pimpernel,” and was impressed enough with the show that she decided to bring it back to LU.

The cast was made up of current and former LU students, including a few from the campus’ theater program. The play will be performed again at 7 p.m. Thursday and 2 p.m. and 7 p.m. Friday and Saturday.

**Hangar changes and expands menu**

By Aricky Mc入党

The General Accounting Office, a watchdog agency of Congress, said Wednesday it had found evidence of shell companies and other schemes by Enron, once a giant energy company, that was involved in the company’s dealings with the government.

The report by the GAO said that Enron had used shell companies to evade oversight and regulations, including a requirement that companies disclose their activities.

The report also said that Enron had failed to disclose its transactions with the government and had not been transparent about its dealings with the Energy Department.

**LU President John Borek**

Is pleased to have an experienced professional like Chief Smith to fill the university well. We look forward to the second session to be held on Tuesday, Jan. 29 at 3 p.m. at Virginia Memorial Park.

**Check out the new menu**

The Liberty University Police Department. On Dec. 23, 2001 Ronald E. Sloan, as with 18 years of service under his belt, resigned as chief in order to accept an offered position as ad manager for Liberty University and my training back to criminal law and instruction.

As an experienced officer, Sloan understands the importance of upholding the law and maintaining public safety. His leadership and knowledge of law enforcement will be greatly missed by the Liberty community and the university’s Police Department.

The Liberty University Police Department encourages all members of the campus community to take advantage of this conference. Community members are encouraged to attend and learn more about the topics related to the end times.

- **LU President John Borek**

The conference is free of charge and lunches will be available for those who attend. Those attending will also receive a copy of "Left Behind" by Tim LaHaye and "The Prophecy" by Dr. Stephen W. Smith.

Listeners are encouraged to take advantage of this conference and to bring friends and family.

- **LU President John Borek**

The conference will be held on Thursday, Jan. 24, 2002 at 3 p.m. at Virginia Memorial Park.

Please see CHECKOUT, page 4

LaHaye, Hindson to speak on Bible prophecy

By Ryan Bell, editor in chief

While you may not be a Bible prophecy by coming to Thomas Road Baptist Church on Feb. 2, 2002, you will learn all about what you need to know about Bible prophecy.

A Day of Prophecy, "Chaired by Tim, will be held on Thursday, Jan. 24, 2002 at Thomas Road Baptist Church.

LaHaye, author of the best-selling "Left Behind" series and Dr. Ed Hindson, religion professor, will present the first session of a two-day conference to help you understand issues related to the end times.

The only ones encouraged to take advantage of the conference are Commu-
The Liberty University Education Department launched a pilot program this year that allows 12 education stude nts the opportunity to take part in a mentorship program to teach local Bedford County schools.

In previous years, students observed a classroom setting the semester before they began student teaching. During that time, they received little feedback from the teacher with whom they were assigned. For the following semester, they student taught in another classroom and then went to another completely different school.

"The education of the student-teacher relationship is so difficult and we are trying to alleviate that," project director and Dean of the School of Communications, Dr. William Griffiths said.

In the new program, students monitor a classroom under the paid mentorship of a schoolteacher and then begins student teaching in the same classroom, under the same teacher, the next semester. In doing this, the students' training is more maintained, and the experience becomes more beneficial both for the student and the teacher.

"We need to get education students out early," said Dr. Griffiths.

"Breaking Free" Engaged? World to whom know?

"Breaking Free" is the title of a new program that aims to help students understand the student-teacher relationship. The program provides grants and helps students gain more experience in clinical settings.

The program is made possible through the allowance of two grants. The Virginia State Universities-Universities Partnership gave the school $15,000 for compensation of mentor teachers, instructional equipment, computer labs and other instructional costs such as administrative salaries.

The second grant came from the U.S. Department of Education in the amount of roughly $12,000. This helps pay for expenses such as travel and food subsidies, but it also pays the school cost dependent research on the effectiveness of the partnership. Griffiths must submit periodic update reports for both grants.

There are currently 12 students enrolled in the program with six elementary schools, two in middle schools and four in high schools. Although demanding at times, there are numerous benefits to the program.

"There are so many advantages to this program. We have two different campuses in the same semester," Griffiths said. "We have the opportunity to improve our resources," writer Christy said.

The great news is also being used to develop an extensive portfolio for the education students. Students are able to scan, review their projects or papers to give to prospective employers in conjunction with the program.

"The importance of the electronic portfolio is to display evidence of student performances," Griffiths said.

However, when the money from those grants runs out, it will be up to Bedford County schools to evaluate whether or not the program is worth continuing. If the answer is yes, then private community support must be solicited in order to keep the program to carry on in the future.

By Laurie Williams, reporter

For just $5, you can have your engagement announced in the Champion in our special Valentine's Issue on Feb. 5. Pictures must be submitted to the Champion office (DH 1035) by Jan. 29. If you have an especially creative, interesting or funny engagement story, let us know! Pick up a form on one of the bulletin boards around campus.

Say Thanks to an LU Employee!

More nominations are accepted for the Modern Day Hero award. Nominations may be made at www.liberty.edu under "a low profile individual who has made a Kingdom impact..."

New praise and worship major combines the worlds of music and ministry

By Chrissy Hannabass, reporter

Bringing two worlds together. That is the goal of the new Bachelor of Science in Worship and the Role of Music Ministry major being offered at Liberty — bringing the world of music and the world of ministry together in train worship leaders.

The LU Worship Institute was started in 1998. It offered Master's degrees through the pharmacy program but no undergraduate program. The administration and the Fine Arts Department decided last summer that LU would no longer offer undergraduate majors in music worship. This semester marks the beginning of the program.

Tafaoa said.

During Christmas break, while many were exchanging gifts and over eating, LIGHT Ministries visited the prisons of England to share hope.

Tafaoa was an intern in England from Dec. 28-Jan. 10. The purpose of the trip to England was to share the good news of Jesus Christ with the inmates.

"I never cease to amaze me how God uses young people that make themselves available for His service. I watched one young man fulfill a personal campaign goal of winning someone to Christ on one trip. To see him, grateful, yet broken, that God would use him to reach someone the same to have no hope in this life," Tafaoa said.

The team stayed in Stratford.

"I would challenge our students to experience what God can do through them on a mission campaign in a cause-challenging setting," Tafaoa said. "I have seen it over and over hundreds of times that God can use this experience to change. former inmates calling on one's life." Tafaoa said.

Tafaoa also mentioned that students should consider going on the trip to England with LIGHT next year. "I would encourage students to be involved in some type of missions trip. It's hard to explain, but you're definitely changed when you get back," Tafaoa said.

For more information about the trips, stop by the LIGHT office in Denver 2 or visit our web site at www.liberty.edu/missionary.

Chief: LU grad ready for duty

Continued from page 1

In 1997 Smith and his family moved to Lynchburg, and within the first year of living in the town, Smith decided to become a police officer. "I have always been interested in law enforcement and just wanted to give it a try," Smith said. "I'm more than willing for the Chief: LU grad ready for duty but it's not always convenient." Smith said.

In 1992, Smith joined the Lynchburg Police Department and was promoted to Corporal in 1994, First sergeant in 1995 and a personal protection specialist since 1996. Smith also serves as an advisor to the Lynchburg Police Academy special operations bureau.

Smith holds a bachelor's degree in Criminal Justice from Liberty University. He said he Is amazed and over­

If you think education is expensive, try ignorance.

Derek Bok

"Trust in God, just don't pray to Him?"

Unintentional ignorance turns on the heat

It’s good to have opinion, they say, and certainly the perpetual blather that fills our ears can leave one yearning for the days of the jaded silence, but again, opinion is the key word. What would we be without it? How would we move forward, or remain static? If we are given the options to either make no decision or to make a decision, what happens when your options are limited? To grin and bear it off of dorm bunk beds.

Class where we are left wondering after 90 mind-numbing minutes. Whatever you do, work at it with all your heart, as working for the Lord is better than eating after you get up and do something about it. We all know the benefits of gaining through various experiences and off campus work beds.

There is one easy opinion one can adopt: Opinion, I would consider reading daily, grasping around to peruse new, either in writing persons in another language or in other words. Physical Science (81 one could better be called the "class where we are left wondering in writing". Then there must be a way to determine that, despite inescapable boredom, your attitude is right. What is it that Christian in a Physical Science class? One can hardly imagine that the time of an unknowing nor would I advise the use of a perfunctory "saying. We can’t afford to waste the time of a generation, which is not just putting to waste. What is it that Christ should proudly display our nation’s motto. It has become more acceptable.

"It is a shame that while American soldiers are fighting our liberties in places like Afghanistan, our young men and women training to be soldiers and leaders at VMI are protected from the very thing they see so clearly. William. It pays for more while Constitutionally permitted forms of church-state involvement in organized prayer for the betterment of all those kinds of legislation, and including "in the public square." Creating a life worth living

Constructing a life worth living

William Allen White once said, “The supreme quality of leadership is this: that you have definiteness of purpose, and know how to get there with the least cost in suffering for those you lead.” I wholeheartedly agree with this principle, and so do I believe that I can use this principle to live a life worth living.

The key to living a life worth living is to have a clear purpose in life. This purpose should be something that you are passionate about and that you are willing to work hard to achieve. Without a clear purpose, life can become a series of disconnected and meaningless events.

A purpose gives life direction and meaning. It is the guiding light that helps us navigate through the ups and downs of life. Without a purpose, we may find ourselves drifting aimlessly, without direction or purpose.

The purpose of life can be personal or societal. It can be something that you want to achieve for yourself, or something that you want to change in the world. Whatever your purpose may be, it should be something that you are truly passionate about.

Living a life worth living also means that you should be willing to sacrifice. Sacrifice is a necessary part of achieving your purpose. It means giving up some of your time, energy, and resources to pursue your goals.

Sacrifice can come in many forms. It can be the sacrifice of time, money, or even your comfort. It can be the sacrifice of personal relationships or even your health. Whatever it may be, sacrifice is a necessary part of achieving your purpose.

In conclusion, creating a life worth living requires having a clear purpose and being willing to sacrifice for it. By doing so, we can live a life that is meaningful and fulfilling, and that gives us a sense of purpose and direction.

Career Center: helping students

By Rachel Minard, reporter

On the beginning-of-the-year day, many students arrive at library, science and Smith to narrow down their interests and find out more about their future choices. Minard Minard, director of the Career Center, said, “It’s a lot of work and we, the students don’t realize this.” Minard said, “Students graduating in May should start sending out resumes and cover letters early.”

Many companies have stated that they only receive about 15 percent of resumes that they receive from within, so many of them are not even looking at student’s resumes. “It’s their choice not to look at student’s resumes,” Minard said.

Throughout the semester, the Career Center provides students with workshops and information on how to put the position they want. Then, in May, Minard said, “Students that haven’t put that into their resume don’t get chosen in the position they want.”

This semester the Career Fair will be held on March 14 and in the Vines Center. Internship meetings are also being held every Tuesday at 4 p.m. from Jan. 20 to April 2. In addition to these meetings in October, students should attend these meetings in order to receive an applications for a summer or fall internship, applications for internships may be in by April 15 for summer internships or May 1 for fall internships. The Career Center also provides students with an interview, career center and train on how to be a job interview. It is important to practice an interview and have a reasonable amount of questions. If you are interested, the Career Center provides services in this area.

Several career services that students will find helpful in preparing for the workforce. Whether students are looking for an internship or an externship, or even a wedding special. “Our desire is to help them plan their wedding, but also help them get the most out of their education,” Sharon Minard, director of the Career Center, said.

Take advantage of the service. “It’s our way on earth that I was going to take the tour of Jamaica last year, we played a beginner lesson is included, and a seminar given by Dr. Tim Chen, what your job? Do you like your job? The student knows what they want to do. This is the last one, and they will not settle for less.”

The Career Center is also holding an event on May 1 for fall internships. Two of the most beneficial to students because they give them a handle on the training that otherwise would be missed. They are extremely beneficial to students because they give them a handle on the training that otherwise would be missed. They are extremely beneficial to students because they give them a handle on the training that otherwise would be missed. They are extremely beneficial to students because they give them a handle on the training that otherwise would be missed. They are extremely beneficial to students because they give them a handle on the training that otherwise would be missed.
The Flames' bowling league is a fun and social activity that gives students an opportunity to participate in team sports. The league is open to all students and faculty and meets on Monday nights at 8 PM. The league has almost 20 people involved, with almost as many girls as guys. The league members enjoy the camaraderie and friendly competition, with some members participating in the league since its beginning. The Flames closed out the season with a 12-1 run of their games before suffering a loss to High Point. The Flames are looking forward to next year's season and the opportunity to continue competing in this fun and social activity.
Softball team eager for season to start

By Chris Humphreys, reporter

Expectations are greater than my coach, assistant coach Nathalie Port-Lawless, and I. As the men's tennis coach, I find it funny that when we play against each other, it's the only way we can compete. As the assistant coach, I find it funny that we have to work together to make it happen.

The men's tennis team enters the fall season with a youthful feel. There are also two new additions to the team in the form of two freshmen. One of these freshmen is Federico Bello, a promising young talent. The other is David Shandruk, a solid and consistent player. They are also two additions to the team in the form of two freshmen. One of these freshmen is Federico Bello, a promising young talent. The other is David Shandruk, a solid and consistent player. They are also two additions to the team in the form of two freshmen.

One of the most highly praised freshmen is Rami El-Badawi, who will be hitting the court with the men's tennis team in the fall. Expectations are high for Rami, and he is looking forward to making a big impact.

Another key addition to the team is Matthias Karcher, a fresh face in the lineup. Matthias is expected to make a large contribution to the team as a receiver.

Karcher was a First Team All-Conference selection in his senior year, leading the Flames in receiving yards and touchdowns. He is expected to continue his success in the fall.

Another key returner is Junior Jay Kelley, who is expected to be a key player in the Flames' offensive gameplan. Kelley was a First Team All-Conference selection in his senior year, leading the Flames in rushing yards and touchdowns. He is expected to continue his success in the fall.

RBI (18), and led the team with 19 home runs. His 118 Davis Cup Road, has agreed to return for his senior year, picking up 575 receiving yards and six touchdowns. He is expected to continue his success in the fall.

Another key member of the team is Junior co-captain Bruno Coelho, who is expected to lead the team in their quest for a National Championship.

Another key addition to the team is Assistant coach Nathalie Port-Lawless, who is expected to be a key player in the Flames' offensive gameplan. Honnington was a First Team All-Conference selection in his senior year, leading the Flames in rushing yards and touchdowns. He is expected to continue his success in the fall.

Another key member of the team is Junior co-captain Bruno Coelho, who is expected to lead the team in their quest for a National Championship.

NBA&NFL REFLECTIONS
With salaries in the NBA reaching the double-digit mark in several high-profile cases, and salaries soaring to new heights, fans are being asked to pay more than ever for the privilege of watching their favorite teams. But for many, the game is still worth the price.

WESTBROOK NBA & NFL
The Los Angeles Lakers and the New England Patriots have been two of the most impressive teams in recent years. Both have been able to put together winning streaks that have propelled them to the top of their respective conferences. However, the Lakers have struggled in recent games, dropping several close contests. The Patriots, on the other hand, have been able to maintain their momentum, picking up wins against some tough opponents.

Despite the Lakers' struggles, there is still reason for optimism. They have a talented roster that includes several All-Stars, and they have shown the ability to bounce back from losses. The Patriots, on the other hand, have been able to weather the storm, and they seem to be reaching new heights in their quest for a championship run.

One area where both teams have excelled is in their ability to protect their home courts. The Lakers have been able to maintain a strong record at home, while the Patriots have been equally successful in their games at Gillette Stadium. This trend is likely to continue as both teams head into the stretch run of the season.

Foul, poor shooting doom Flames against High Point
High Point pulls away late against Liberty

By Chris Foster, reporter

The Flames got off to a good start in last Saturday's game against the Flames at Radford, but the Blue and Gold were able to pull away for the win.

"They had a chance to get back in the game," said Flame Head Coach Dan Eisentrout. "But we couldn't do that down the stretch." After the first half, the Flames were ahead by two, 53-51. But in the second half, the Blue and Gold pulled away, outscoring the Flames 57-45.

Eisentrout said that the Flames' defense was key to their success in the first half, but that they struggled in the second half.

"We didn't have enough defense in the second half," said Eisentrout. "We had a chance to get back in the game, but we couldn't do that down the stretch.

"We're going to have to improve in several areas," added Eisentrout. "We're not doing the things we need to be doing, and we didn't make it happen at that point in time."

Meanwhile, Radford began to show momentum into the half, closing out with a three-pointer with 2:17 left to play.

Twice in the second half, the Flames closed out with an 11-2 run, including a basket and a foul by Eton's Holly Andrews scored a free throw.

The Flames were down by 20 points with over 10 minutes to play.

"We're going to have to improve in several areas," said Eisentrout. "We're not doing the things we need to be doing, and we didn't make it happen at that point in time."

"It was a hard fought game," said Radford's Head Coach Jeff Van Gundy.

Radford ended the season with a 26-6 record, while Liberty finished 27-5.

The Flames will be back in action in March, preparing for the upcoming game against Liberty.
