Reserve students go to war

The national headlines about a possible war with Iraq are now making headlines at Liberty. Several students at LU enlisted in the military reserves or are on active duty. While military commitments normally don’t block the way of attending classes, now, with the prospect of a war looming near, the students facing deployment. Some have already been called to serve their country while others are waiting for their orders. Alina Clark, a junior and a reservist since August 2001, received the long-awaited call to active duty a few days before classes began. Clark left, “I was sad before, but I’m now excited because she’s married to a man that loves her.”

Sophomore Austin Mayhew is a sergeant in the Army Reserve and is undergoing deployment orders. When asked if he thought he might get to serve in the war, he replied, “I really don’t care if it’s in a matter of it, is a matter of when and in what capacity.”

“Of course this is exciting and hectic. It’s scary in that you’re a body that might not return home, but it’s exciting because this is what you’ve trained for.”

The Spirit of the University... Our next issue will preview the cities surrounding the Liberty Godparent Home.

University officials have announced plans to close their purchase of the Ericsson building.

NEW HIRE — Albert Jennings and Bridgette, his mother, moved to Lynchburg in January to begin a new chapter in their lives. Jennings, an accomplished pastor, will be heading up the Godparent Home in Lynchburg.

Jennings, who recently graduated in 1994, may not look like the type of man to be wearing bracelets and earrings.

Jennings said. What he has seen “out there” is a growing number of youth turning to drugs, sex, gangs and violence.

“In a search for leaders to reach out to the youth, this opportunity is both exciting and scary. This chance to make a difference in the lives of others is something Jennings is eager to take on. He plans to use his experience and the anointing of God to make a difference in the lives of the youth.

Jennings came to Liberty University on Friday, Jan. 24 and addressed a small group of student leaders in the Minority and International Student Officer.

“In a search for leaders to reach out to the youth, this opportunity is both exciting and scary. This chance to make a difference in the lives of others is something Jennings is eager to take on. He plans to use his experience and the anointing of God to make a difference in the lives of the youth.

I hate the Super Bowl. There, I said it. Why would a man who loves sports and especially the game of football hate the biggest game of the year? Well, first of all I have a Super Bowl experience that terrified every living person from the city of Cincinnati forever. Take a trip with me back to what I believe was 1988. Neon green shoelaces, spandex, starter jackets and fanny packs were all the rage. And more importantly my beloved Cincinnati Bengals were in the Super Bowl, I was a young tyke of eight years old, and I was already a diehard fan of my beloved Cincinnati city of Cincinnati forever. Take a trip with me back to what I believe was 1988. Neon green shoelaces, spandex, starter jackets and fanny packs were all the rage.

And more importantly my beloved Cincinnati Bengals were in the Super Bowl, I was a young tyke of eight years old, and I was already a diehard fan of my beloved Cincinnati city of Cincinnati forever. Take a trip with me back to what I believe was 1988. Neon green shoelaces, spandex, starter jackets and fanny packs were all the rage.

I went to my little race car bed thinking the Bengals were going to win. I was going to wear my Boomer Esiason "hottie." And more importantly my beloved Cincinnati Bengals were in the Super Bowl, I was a young tyke of eight years old, and I was already a diehard fan of my beloved Cincinnati city of Cincinnati forever. Take a trip with me back to what I believe was 1988. Neon green shoelaces, spandex, starter jackets and fanny packs were all the rage. I was going to wear my Boomer Esiason "hottie." If I didn't have to see that highlight, the buffalo shoelaces, spandex, starter jackets and fanny packs were all the rage.

Joe Montana had just led an improbable comeback for the 49ers. The Bengals were the Super Bowl champs. I was so excited. I was going to wear my Boomer Esiason "hottie." And more importantly my beloved Cincinnati Bengals were in the Super Bowl, I was a young tyke of eight years old, and I was already a diehard fan of my beloved Cincinnati city of Cincinnati forever. Take a trip with me back to what I believe was 1988. Neon green shoelaces, spandex, starter jackets and fanny packs were all the rage.

El Salvador mission team returns
By Rhiannon Beny, assi news editor

In early January, 18 LU students and three leaders had the opportunity to travel to El Salvador with LIGHT Ministries for a mission trip. The team worked in the city of Santa Ana, home to about 140,000 people.

After flying out of Reagan National Airport in Washington, D.C., the group arrived in the city of Santa Ana on Jan. 2. From there, they traveled by van to their destination of Santa Ana.

The team was led by Tony Nylander, director of LIGHT Ministries, Stacie Davis, program manager for LIGHT, and Nylander’s wife, Cornie.

According to Davis, they worked mainly with a church named La Familia de la Fe while spending more than a week enjoying temperatures in the high 80s. "It was very traumatic to come back to snow," Davis said.

In Santa Ana, Davis said, the experience "brought the group closer together," with various opportunities to share the gospel, Davis said. Overall, she said, the people they met were open to hearing the message the team was sharing. More than 25 people made decisions for Christ.

However, an unfortunate incident proved to be different from prayer for the group. While in Santa Ana, Davis said, she ended up spending four days in the hospital there. Davis had six nurses taking care of her who really got a good look at the team’s faith.

"They know the spirit of the Lord was there when the whole team was there praying with me," Davis said. She said it was a chance for the group to offer effective ministry with how it handled the situation. "Though it was not enjoyable being in a foreign hospital, Davis said, the experience strengthened the team’s faith.

The team returned to the United States Jan. 14, just in time to begin classes the next day.

COMA program planned
By Christopher Fernandez, reporter

Tentative plans are underway for a graduate program in communications here at LU. Still in its early planning stages, the program will offer an MA in Strategic Communications and Leadership.

If it is approved, it will be added to a growing roster of graduate programs that are already available from various other departments, such as Nursing, Business and Religion.

The program is being developed because there is a demand for graduate degrees in the area of communications. "We're trying to fill a need and build on strengths that we have," Davis said.

The faculty here has various areas of expertise that are important in business, education and ministry. These courses would help them hone those skills," Davis said. His goals, Davis said, are to help the students to continue their education and that some of them will still want to continue it here. "Some of those students will go to graduate schools, why not get it here?"

They could find something here that they are looking for," Davis said.

Several communications majors have already expressed an interest in such a program being developed.

"I would like to be the best possible professional, and in the field that I am studying—Advertising and Public Relations—enabling my education above a bachelor's would be highly beneficial," Tony Onafowokan, a freshman communications major.

One of the benefits of a graduate program is to allow graduate teaching assistants to assume some of the lower responsibilities for introductory courses. This would allow professors to focus on research and upper level classes.

In turn, graduate assistants would receive tuition assistance and be stipend to teach. "I would like to get their;" Onafowokan said. The use of graduate teaching assistants will decrease the number of graduate students required for a rapidly growing student body.

This financial assistance will probably alleviate the concerns of some students who are not sure they can afford graduate school.

"Sure I would attend the graduate program, but they would have to offer a good financial aid package," junior Devetta Saunders said.

"Certainly, because I believe that the program will still remain in its state for any time soon. There is still much work to be done. It is just in its early stages. This does not mean that it will start this year or the next," she said. If approved, the program will probably not be offered until 2005.

Student wins national award
By Rhannon Berry, ass., news editor

Senior Joe Portnoy will travel to Nashville, Tenn., Feb. 9, where he will officially announce the first place Student Achievement Award winner for his site "The Top 30 Popularity Contest," the Web site he designed while at LU. Held at the Opryland Hotel, the ceremony is a part of the National Religious Broadcasters (NRB) convention.

Created to promote Portnoy's radio show on 96.9 FM, "The Top 30 Popularity Contest," the Web site caught the eye of the Intercollegiate Radio Broadcasters (IRB) division of the NRB, for its design and content. It has unsaved people visit his site. "I didn't believe my dad at first, and I still kind of don't believe it," Portnoy said. He also believes that he won because it is a good contest.

"I didn't believe my dad at first, and I still kind of don't believe it," Portnoy said. He also believes that he won because it is a good contest.

Opinion

The dumbing of U.S. culture

As Americans become increasingly sensitive toward differences of health and feelings of ethnic and religious minorities, the extremest at one end or the other, we have also become increasingly intolerant in our regard to mainline religious denominations, especially that of Christianity. Their current culture's warped way of thinking has become an act of civil dignity to discriminate against what was once regarded as normal. Just ask Patrick Cubbage, who was fired by the 12-man military honor guard for the veterans who had this family, and God bless the First Amendment "Freedom of Religion," at a graveside service, we see the erosion of secular law in the United States.

I once had worked for the Brig. Gen. W.M. Dodge Veterans Memorial Cemetery in Burlington, N.J. when I was still in high school, I was responsible for presenting a flag to each of the men in the service of our country. Interestingly, among the list of six servicemen were such individuals as Jewish, Protestant, and African American. This was a respect for the American way in which we have become more sensitive to the religious diversity in this country. To give a proper reflection of the service to all races, I was asked to reflect on the service of the men who were more sensitive to the religious diversity in this country.

Religious tolerance goes too far

As Americans become increasingly sensitive toward differences of health and feelings of ethnic and religious minorities, the extremest at one end or the other, we have also become increasingly intolerant in our regard to mainline religious denominations, especially that of Christianity. Their current culture's warped way of thinking has become an act of civil dignity to discriminate against what was once regarded as normal. Just ask Patrick Cubbage, who was fired by the 12-man military honor guard for the veterans who had this family, and God bless the First Amendment "Freedom of Religion," at a graveside service, we see the erosion of secular law in the United States.

I once had worked for the Brig. Gen. W.M. Dodge Veterans Memorial Cemetery in Burlington, N.J. when I was still in high school, I was responsible for presenting a flag to each of the men in the service of our country. Interestingly, among the list of six servicemen were such individuals as Jewish, Protestant, and African American. This was a respect for the American way in which we have become more sensitive to the religious diversity in this country. To give a proper reflection of the service to all races, I was asked to reflect on the service of the men who were more sensitive to the religious diversity in this country.

Religious tolerance goes too far

College coach sues Indiana U.

Bobby Knight’s day in court
January marks the beginning of a new semester and a new year. Most of us have already broken new years resolutions and the weight of getting in shape, healthy eating, and upping our energy level is something else to do with being more healthy in the new year. If you will be the first to fall or if you are a bit late starting this year’s New Year’s drop to keep or start exercising regularly, thin n is not the right way to start.

There are many ways to get in shape and maintain a healthy body throughout the year. Many schools can be the biggest money from keeping you from exercising and eating properly, but if you make those things part of your sched ule you can do it. Good food may not grow aligned but we cannot get there, but monitor the things you eat and don’t eat. Colleges are some of the worst offenders when it comes to thinking too much and eating too many foods. Think you don’t have a lot of energy now? This stuff may not be as much as doable, so the losing weight, but why not do it? Why not you for doing something to do with being more healthy in the new year. If you will be the first to fall or if you are a bit late starting this year’s New Year’s drop to keep or start exercising regularly, thin n is not the right way to start. Exercise is also often left out of our schedules, but it is an important practice. "I love the kickboxing class here," freshman Jessica Bolstridge said. "It makes me feel stronger and really gives me a great workout." She came out one week ago and has been coming ever since. After taking time to really think about it and going to more classes, she has found that Pilates is a great way to lose weight and have a great workout. She truly believes it is a fitness dream come true. Low impact, it is mainly practiced for health, yet it is a very popular form of exercise.

In accomplishing this task, I ble muscles without building bulk. In fact, I have learned that instead of focusing on your knees to slowly gravitate towards the ground. You then lift your arms and place your hands on your knees while you concentrate on your breath ing. It is a very effective way to release stress, the world is not all well and good, but there is still a way to go. I will not go over the room or personal exercise plan I do, as it is not an exercise plan one should be doing for more than a month.

Now, I am more than willing to admit that I have not been one to try new, but I have used every type of fitness gym or goddess. I am one of the best attituded individuals with a perfect resume. By Camie Poplaski, reporter

STRETCHING OUT—Shawn Tucker stretches before his workout.

Survival of the Fittest

By Carole French, reporter

Lottery.

Two semesters ago I joined the rest of my classmates and got motivated and learned how to eat right—such as the concept of drinking eight glasses of water a day, and the idea that it was actually important how many fruits, vegetables and grains I had with each meal. This was all well and good, but there was a right to go. I will not go over the room or personal exercise plan I do, as it is not an exercise plan one should be doing for more than a month.

Now, I am more than willing to admit that I have not been one to try new, but I have used every type of fitness gym or goddess. I am one of the best attituded individuals with a perfect resume. By Camie Poplaski, reporter

Our society has become increasingly more focused on fitness and health in recent years. A new, healthy lifestyle has become the norm, and people are constantly on the lookout for ways to maintain their fitness. With the increase in awareness of the importance of a healthy lifestyle, many have turned to fitness centers and gyms as a way to stay in shape and maintain their health. While gyms can be a great resource, it is important to choose the right gym for your needs and budget.

There are many different types of gyms to choose from, each with its own unique offerings. Some gyms are focused on strength training, while others offer a variety of aerobic classes and cardio equipment. Some gyms also have access to pools, tennis courts, and other recreational facilities. It is important to consider your personal fitness goals and preferences when choosing a gym, as this will help you find the right one for you.

One option to consider is the YMCA. The YMCA offers a variety of classes and programs, including swimming lessons, yoga, pilates, and aerobics. The facility also has a gym with cardio equipment, free weights, and a pool. Additionally, the YMCA offers a variety of fitness programs, including personal training and nutrition counseling.

Another option to consider is the American Fitness and Sport Supply Store. Located in the Waterlick Plaza on Timberlake Rd., the store offers a variety of equipment and supplies, including weights, machines, and cardio equipment. The staff is knowledgeable and friendly, and they are happy to help new members get started on their fitness journey.

In conclusion, there are many options when it comes to finding the right gym for you. It is important to consider your personal fitness goals and preferences, as well as your budget, when choosing a gym. Whether you are looking for strength training, aerobic classes, or a variety of fitness programs, there is a gym out there for you.
**Men: Split difficult South Carolina road trip**

**The Buccaneers of Charleston Southern University (11-7 overall, 5-1 in the conference) used good perimeter play and defensive pressure to pull out the 78-57 win on Monday where they committed 21 turnovers to the Buccaneers shot at even 50 percent from the floor. The Buccaneers led at 37-29 in the second half with a 12-4 run. This early start put them through the end of the game. The Buccaneers’ Charles White led all scorers with 10 points. The Buccaneers had four players in double figures. With the lead at 16-12, CSU went on a 15-0 run halfway through the second half to extend his lead at 66-28 with less than eight minutes to play. Liberty then responded with a run of its own to cut the Buccaneers down to 16-10 in 66-28. The Titans were able to get closer than that. The Flames had two players in double figures. Junior Guard Martin scored 16 points and Okotie tallied 10 in the contest. LIB’s next game is at Elon, on Feb. 7.**

**Intramurals are underway**

By Ben Cates, reporter

The spring intramurals began with an indoor soccer tournament on Monday. The Schilling Center is hosting the tournament, which will continue over the next four weeks. The Student Life Department is expecting a large turnout for each of the remaining nine sports, which will be added in. To take part, players need to register by going to intramurals.flyliberty.edu. Spring sports range from the ever-popular basketball to ultimate frisbee, a sport that can be played for fun or to be competitive, and ultimate frisbee. Spring intramurals have been started during the university’s last two years. Both men’s and women’s basketball teams are offering intramurals. The three-year-old program has increased significantly from last year. “I expect the turnout to be better than last year, based on having more students involved,” Barhouse said. “We have 500 new students this semester, and overall, freshmen are a big part of participation.” In previous years, men’s teams have turned out for fall intramurals; however, modern women’s basketball teams have been involved in the tournament. The semester’s most popular sport, ultimate frisbee, is played in the spring. Men and women’s basketball intramurals will begin on Feb. 4, and will run throughout March Madness. Both men’s and women’s softball start respectively on March 5.

**Martin: Hard work paying off for JUCO transfer**

“Both that hard work and starting to play. I try to play for the pride of God, with His blessing. I try to play to the best of my ability, no excuses,” Martin said. The relationship between Coach Durham and Martin actually began before he started here. When the Kansas native with the elevator legs and in his veins originally chose a college at which to play basketball, he opted for Bishop McGuinness University College in Oklahoma, an NAIA school. “I wanted to go to a college, I’m from Kansas, and I’d be a lot better off playing ball,” Martin said. Although Martin was still a few hours away from New York City, it still wasn’t Kansas anymore. He had to travel to a new city and meet new people. He had to make the transition. Martin turned his new obligations and then some. Although he had endured a difficult transition time several years ago around the league, Martin — who can bench 320 pounds — turned around for the moment, there is limited space for intramurals. However, in the near-future future, the university will be able to better serve the interests of all students. When the purchase of Ericsson is complete, there will be plenty of room for intramurals sports. At that time, there will be four softball fields and at least eight additional fields used for intramurals. With 10 different spring sports already planned, there is something for everyone. The great thing about intramural sports is that they have the ability to attract both competitive players and those looking to relieve stress from classes. The spring intramurals are underway.

**Liberty basketball injury update**

• Krista Peters returned from an ankle injury that sidelined her last season. She became the team’s third leading scorer. • Monique Leonard was seen on crutches and missed the last game with an injury to her foot, for which she will be evaluated more at the end of this week. • Crystal Peace also suffered a knee injury against Charleston Southern and has not played since. She too will be monitored later in this week. • Birm Morgenstern missed the last two games with a pulled muscle in her leg. She is limited to day-to-day. • Freddie Williams’ broken hand suffered during the game will keep him sidelined until March. • Daniel Rose will miss the entire season with a knee problem in his foot, suffered on a dunk. With post season here.

Aundrea Dawson: Brings versatility to LU

BY ROBYLENA MAEKU, sports writer

Sophomore Aundrea Dawson is only one of two players in the Liberty women’s basketball team who have been on the team since the season. Most people would agree that the care and determination that Dawson has is not the norm in today’s college sports world. Dawson has had a great season so far. She brings a variety of skills and abilities to the team, and her success is a testament to her hard work and dedication.

The Flames’ point guard has been a consistent presence on the floor. With her ability to score and make assists, she has been a key factor in the team’s success. Her leadership and determination are evident on the court.

Dawson is a strong player who always gives her best effort. Her work ethic and determination are inspiring to her teammates. She is always ready to take on any challenge and is not afraid of failure. Dawson’s ability to score and make assists is a testament to her hard work and dedication.

Aundrea Dawson is a valuable addition to the Liberty women’s basketball team. Her determination and leadership are key to the team’s success. She is a true example of the kind of player that every team needs.

Coach Green said, “We have to score to win. It’s that simple.”

Only the strong survive
Lady Flames slay the Highlanders 59-45 to stay a perfect 6-0 in Big South competition

By Andrew Martin, reporter

The Flames men’s basketball team went down to South Carolina for a tough road trip and came away with a win.

The loss came against Big South leader Charleston Southern University, while the win was posted against Coastal Carolina University.

The Flames were able to overcome poor shooting on Saturday by getting the clamps on the Chanticleer offensive scheme in the 55-54 win. Flames’ defending stopped CCU to only 33 percent shooting from the field.

The win puts the Flames at 6-0 in conference and 9-9 overall, while the Chanticles drop to 2-4 in conference while also 9-9 overall.

The game started with a very unusual situation. Liberty was assessed a technical during pre-game warm-ups after a dunk by Vince (Gecko) Caster (Turner) before Butler knocked down both free throws for a 2-0 lead before the big.

Martin scored 20 points on the night but was the only Chanticleer to get over the 10-point hump in the game.

The Flames were tripping the game with 5:13 to play when they went on a 9-0 run to push them into the lead to stay.

With 2:8 seconds to play, Chanticleer’s Clint Nagel was at the line shooting two foul shots. He missed the first, and on the second he gathered his own rebound, but only to claim an 8-pointer on the buzzer sounded.

Jeremy Monica was the leading scorer on the Flames with 22 points. Jason Sarchet and Gabe Martin also scored in double digits of 12 and 20 respectively. Along with the 12 points, Sarchet gathered 10 rebounds for his double double.
