Spring board tour promotes unity

The band will tour for eight weeks, performing in 33 cities in the United States, Canada and the Dominican Republic. The tour is sponsored by Yamaha, Yamaha Music Canada, and Yamaha Canada. The band will perform in cities such as New York, Chicago, and Los Angeles, as well as smaller towns like minecraft. The tour will conclude in Miami in late December.

The concert will feature a variety of music, including rock, pop, and jazz. The band will perform a mix of original compositions and arrangements of classic and contemporary pieces. The concert will be presented in a variety of venues, including churches, schools, and community centers.

The Chestnut Hill Concert is presented by the Chestnut Hill School and is supported, in part, by a grant from the Chestnut Hill Community Foundation. For more information, please visit the Chestnut Hill Concert website at chestnuthillconcert.com.

Spring Calendar

At The Movies!

New on campus price - all shows only $.75

April 1 - April 4

Special Activities!

Poetry Contest:

Wednesday, April 1, at 7:30 in the MultiPurpose Center.

TRUTH in Concert:

April 1, at 7:30 in the MultiPurpose Center.

YMCA shoe sale:

April 4, from 9 a.m. to 2 p.m., 150 pairs of shoes will be sold at $3.00 a pair. All sizes and styles are available. The sale will be located at the YMCA, 626 Church St.

On Campus!

SGA Chapel Speakers:

Bert Martinis, vice-president of engineering, coordinates the wiring that directs television signals such as CNN and ESPN to the admission monitors in DeMoss Hall.

Cable on campus will provide entertainment for those students who cannot line up a group easily or workwise, "Martinis explained. In addition to the presently aired news channels, Martinis plans to provide more news channels. He said that the American Movie Classics channel, which shows many of the older movies from the 1940s, 50s and 60s, is also among the programs in the planning stages.

"Besides providing entertainment for students, it’s going to be available for language lab teachers who are interested in pulling their off a Canadian audience in French," Martinis said.

Several Christian teaching programs and informational channels will also be provided for the teachers to use as instructional tools. Martinis, along with his co-worker Larry Whately, have secured wire installation in the domes of the north side of campus to enable students to view cable-program source from their recreational facilities.

"In the recreational areas, there’s TV now which will be tied into the system. The wiring procedures take time and work," Martinis explained. The initial planning procedures have taken six months, and Martinis expects the installation to take two years.

According to Martinis, Liberty Satellite Services plans to start wiring during the summer. "If you can enjoy a movie or a sports event or some Christian program in the comfort of your own door, it’s to your advantage," Martinis said.

Some students are in favor of cable being provided for their leisure time. "You have to be responsible to pull yourself away from the TV. As long as it’s not compromising anybody’s standards, I’m in favor of it," Tracy Parker said.

Lack of competition results in farce

Another round of SGA “elections” is around the corner. This year will be unique because one office for “incumbent” is unfulfilled. The officers of president and executive vice president will be held by incumbents Dave Dawson and Beth Sweeney, respectively. With the office of secretary of the SGA, the vice president will square off for the vice-president of activities position. The student body is being offered as much choice in this election as Joseph Stalin offered the Soviet people in his one-party speech. The analogy is not totally correct because two contenders, who handed in their applications several hours late, were disregarded. Neither SGA nor the incumbents are to blame but rather the possible candidates themselves for missing the deadline. The student body is being offered as much choice in this election as Joseph Stalin offered the Soviet people in his one-party speech.

The lack of candidates does not spell well for SGA, unless one thinks the current administration performed at an unbelievable level. But an exceptionality has developed with the current administration. Within the last year, Dawson and his staff have supported two senate bills that limit the amount of student input and give SGA an elitist image. The first, which was rejected by the senate, created requirements for students interested in running for an office. It basically indicated that an SGA candidate without “SGA experience” is unqualified to run. Shouldn’t the students be able to decide who is most qualified for the student government, what does it have to do with the student government? The only legitimate reason for denying the liking of Georgetown, Florida State and Louisiana State in the West Region is to prevent the elimination of the power house schools at the hands of other power house schools and for the sake of fairness only.

The second and迄今为止, the most important senate bill of the year was introduced by Mr. Dave Dawson in the West Region. Makes no kind of wonder how the upper echelon of the NCAA fared in geography. The requirement was not isolated to Georgetown, in fact 31 institutions are placed in erroneous locations. That’s not too bad, until you figure there are 113 different positions and realize that the tournament committee is losing. 404.

Perhaps I’m going over someone’s neck a little too thin. But I’m sure one of the Southern Regional tournaments is held in Cincinnati. The only legitimate reason for assigning the liking of Georgetown, Florida State and Louisiana State in the West Region is to prevent the elimination of the power house schools at the hands of other power house schools and for the sake of fairness only.

The NCAA been four regional tournaments (Eastern, Southern, Midwest and Midwest) representing the four most populated collegiate sections. However, the majority of selections are accomplished by the region, e.g. Georgetown University, located outside Washington, D.C, was selected as a host in the Midwest Region. Makes no kind of wonder how the upper echelon of the NCAA fared in geography. The requirement was not isolated to Georgetown, in fact 31 institutions are placed in erroneous locations. That’s not too bad, until you figure there are 113 different positions and realize that the tournament committee is losing. 404.

Perhaps I’m going over someone’s neck a little too thin. But I’m sure one of the Southern Regional tournaments is held in Cincinnati. How would one assign the liking of Georgetown, Florida State and Louisiana State in the West Region is to prevent the elimination of the power house schools at the hands of other power house schools and for the sake of fairness only.

Washington ignores economic realities

BY DALE JOHNSTON

Washington, D.C., has once again signified the nation’s competitiveness by widening the self-serving sales and has given in the same breath of providing potential producers of manufactured goods. And yet the government has the ability to encourage and it will be necessary to maintain the nation’s competitiveness. A productive output is limited by the extension of benefits. Government never looks beyond the extended period to provide a healthy economy. The productive output is limited by the extension of benefits. Government never looks beyond the extended period to provide a healthy economy. The productive output is limited by the extension of benefits. Government never looks beyond the extended period to provide a healthy economy.

Today, a slight pet peeve was again resurrected: the titles of the regional tournaments. Only three Western schools are represented in the Associated Press Top 25 Feb. 1. Names like Texas, Mississippi and New Mexico are much more suitable. And yet, Mr. John Wooden, the late Arizona State basketball coach, pointed out in his book on the sport that the regionals are held in Cincinnati. How would one assign the liking of Georgetown, Florida State and Louisiana State in the West Region is to prevent the elimination of the power house schools at the hands of other power house schools and for the sake of fairness only.

As I was perusing (a favorite verb of mine) the newspapers, I noticed an article about the NCAA tournament is held in Cincinnati. How would one assign the liking of Georgetown, Florida State and Louisiana State in the West Region is to prevent the elimination of the power house schools at the hands of other power house schools and for the sake of fairness only.

The first, which was rejected by the senate, created requirements for students interested in running for an office. It basically indicated that an SGA candidate without “SGA experience” is unqualified to run. The main problem is that people, when you say black history, think “black.” Anyone says “black” in today’s world is like saying “I’m black” or “I’m white.” How could you, even in today’s world, say “I’m white” and go to be on the same team or the same discussions on the same subject? You wouldn’t never be on the same discussion. All my life I had to fight white people because I’m not the color black. There is no way of thinking. But nobody has to fight to say “I’m white.” My founding fathers are just as important as any color. As a matter of fact, American history, black history is a basic concept and is only a basic concept. History as a whole is being taught.

The fire for equality was founded on the backs of the blacks back in the 1860’s. But what can be the result of being colorblind? How could you, even in today’s world, say “I’m white” and go to be on the same team or the same discussions on the same subject? You wouldn’t never be on the same discussion. All my life I had to fight white people because I’m not the color black. There is no way of thinking. But nobody has to fight to say “I’m white.” My founding fathers are just as important as any color. As a matter of fact, American history, black history is a basic concept and is only a basic concept. History as a whole is being taught.

Lakewood Baptist Church emphasizes the family unit

By JESSICA WHITAKER and BRANDI BARNUM

An emphasis family is vital to a successful, local church, pastor Dr. Rick Grantham said. As the pastor of Lakewood Baptist Church on Sunburst Road, Hoagland focuses on the importance of incorporating families into church activities.

"Because of the high-pressure, high-stress society we live in, the family is being pulled away from the center of community in faith, in love, in ministry," he said. "That's what Lakewood is standing for.

"You can't carry out God's word without carrying out his family-oriented philosophy. How do you develop a family-oriented church? The answer is doing what the family does, not just telling them to do it."

Hoagland feels that Sunday night is a time for families to grow together, "Because of the family's faith, it is not only the kids, but parents working — it is a way to get people out during the week," he said. "Sunday night is a night of activity, family involvement, and it is a time when parents can develop a relationship with their kids, something that will benefit them forever."

Nogowski has obtained the program, "The Touch of the Master's Hand," which covers the history of the program. Nogowski hopes to begin the program by using this book to introduce the concept of Discipleship, he said.

"The Touch of the Master's Hand" is a program that has been in existence for over 75 years. According to Nogowski, the program was started in 1917 by Myra Brooks Welch, "The Touch of the Master's Hand," to help couples grow closer to God and to each other. The program is based on the verse from John 15:9, "I am the vine; you are the branches. Whoever remains in me and I in him will bear much fruit; for apart from me you can do nothing." Nogowski said that Thomas Nelson Publishers has recently reissued the program, "The Touch of the Master's Hand," and that he hopes to start the program at Lakewood Baptist Church, where there has been an increase of better than 50 members in the last year.

The program covers topics such as family growth, with a focus on the family's role in its growth. The program is called the 24-hour counselor, and the emphasis on family carries over into its membership. The program is open to all families, regardless of whether they are church members or not. Through the program, the family is encouraged to grow together and to develop a relationship with each other.

Lakewood Baptist Church has experienced rapid growth since Hoagland began his pastorate in 1989. During his time at Lakewood, Hoagland has added 30 members with 15 of those members being new converts. The church has also added 30 members with 15 of those members being new converts. The church has also added 30 members with 15 of those members being new converts.

"The program covers topics such as family growth, with a focus on the family's role in its growth. The program is called the 24-hour counselor, and the emphasis on family carries over into its membership. The program is open to all families, regardless of whether they are church members or not. Through the program, the family is encouraged to grow together and to develop a relationship with each other.

There is more to courtesy than mere kindness.

Have you ever heard the saying, "A kind word may break a heart; a little kindness may change the course of a life." It is true. Sometimes a little courtesy goes a long way.

"It is nice to be polite to people, but it is even more important to show compassion and kindness to those who are in need," said Nogowski. "We are called to be lights in the world, and it is our duty to show love and compassion to those who are in need."

There are certain points that can make or break a successful family, according to Nogowski. One of these points is the importance of communication. He said that it is important to communicate with each other, to listen to each other, and to show compassion and kindness to each other.

Another important point is the importance of quality time together. Nogowski said that it is important to spend time together as a family, to do things together, and to show compassion and kindness to each other.

"It is important to spend time together as a family, to do things together, and to show compassion and kindness to each other. If you don't spend time together, you will never develop a relationship with each other. It is important to spend time together as a family, to do things together, and to show compassion and kindness to each other. If you don't spend time together, you will never develop a relationship with each other."

Hoagland feels that Sunday night is a time for families to grow together, "Because of the family's faith, it is not only the kids, but parents working — it is a way to get people out during the week," he said. "Sunday night is a night of activity, family involvement, and it is a time when parents can develop a relationship with their kids, something that will benefit them forever."
Basketball madness has arrived

After 48 games in four days during the opening weekend, the NCAA tournament has barely begun with countless games to be played and the national championship still up for grabs.

This year, the selection committee made the difficult decision to expand the tournament to 64 teams. The NCAA tournament is a blue-chip NBA program that brings together 64 teams dreaming to claim glory in the Frozen Four.

Campbell, Eastern Illinois, Delaware did not ensure a trip. The most numerous number of teams did not ensure a ticket to the tournament. But this season, even 25 victories in the regular season was not enough to guarantee a spot in the tournament.

The tournament has come to be known as March madness for the reason that teams can surge from one spot to another in the rankings.

This year, the “March madness” trend has continued as it has done in previous years. One of the most inspiring stories is the fact that its conference, the Mid-American, is the top up-and-coming conference.

Some teams have gone from one spot to another in the rankings. The latest example is the fact that its conference, the Mid-American, is the top up-and-coming conference.

In the NCAA tournament, the best teams are not always the ones with the best records. A team can have four lives in those events. In the NCAA tournament, the best teams are not always the ones with the best records.

The NCAA tournament has come to be known as March madness for the reason that teams can surge from one spot to another in the rankings.

This year, the “March madness” trend has continued as it has done in previous years.

The University of North Carolina Tar Heels were the only team to win the tournament.

The Tar Heels defeated the Duke Blue Devils 81-61 in the championship game to claim their sixth national title.

Burch led LU athletics through changes

By SHANA HUFF
Sports Reporter

Chuck Burch, president of Liberty University, announced his retirement at an Athletic Department meeting on March 17. Burch, who has been at Liberty for 10 years, will step down at the end of the school year.

Burch, a former basketball player, was named the head athletic director in 1992, becoming the first head AD in the university's history.

"Chuck has been a tremendous leader for our athletic department," said Dan Hope, vice president of university relations. "He has been a role model for our student-athletes and our coaching staff."

Burch's tenure at Liberty has been marked by success on the field and in the classroom. Under his leadership, the Flames have become a competitive team in the Big South Conference, winning conference championships in football, men's basketball, and women's soccer, among other sports.

Burch has also been active in the community, serving on numerous boards and committees. He is a member of the Southern Association of Colleges and Schools, the NCAA, and the National Association of State Universities and Land Grant Colleges.

"I've had the privilege of working with some of the best coaches and athletes in the country," Burch said. "I've been blessed to be a part of this great university and I will always be grateful for the opportunity to serve Lib­­­erty University."

Burch's departure leaves a void in the athletic department, but Liberty already has new leadership in place. Brad Dobson, who has served as the university's associate athletic director since 2019, will assume the role of acting AD.

Dobson has been with Liberty for 17 years, serving in various roles including assistant AD for external affairs, senior associate AD for championships and compliance, and AD for external affairs. He has also played a key role in the development of Liberty's athletics program, helping to grow the program from a four-sport program to a 17-sport program.

"I'm excited to take the next step in my career at Liberty and to continue to build on the foundation that Chuck and his team have laid," Dobson said. "The program is in a great position for continued success and I look forward to working with the athletes, coaches, and staff to achieve even greater heights."
