German teen goes on shooting spree

A German teenager fatally shot a classmate at a high school Friday. After being expelled for bringing a knife to school, the 15-year-old boy went to his school and turned gun on 15 students and two teachers. After 40 rounds were fired, Clark Finnell, the gym

Teen forced to sleep in car as church was closed for修

Teenage boy who wanted to sleep in his car after church was closed due to weather forced to drive back to his house. However, the church's doors were locked, forcing him to spend the night in his car. The boy, who was visiting his grandmother, said he was forced to sleep in the car due to the weather conditions.

Pawlak, a 19-year-old Robert, entered the school and

EDP increases tuition

By William Williams, reporter

Liberty University's Distance Learning Program recently went into effect, allowing students to complete their bachelor's degrees online. One of the goals of the program is to attract a larger number of students of different educational backgrounds. The new program offers a wide range of courses, ranging from introductory to advanced level. The difference is, unlike the EDP students, students who take the distance learning courses will not have access to on-campus courses.

Students give blood to save lives

By Melissa Coleman, reporter

Students greatly contributed to LifeTouch by blood drives April 24. Women and men, 18-24, and 50. Donors who gave blood on Monday, April 24, were able to get their bone marrow tested to find out if their marrow is a match. If someone's marrow is a match, it can be taken and sent to places around the world. Although some students had a slight wait, their patience was greatly rewarded. Since blood is in such high demand, students greatly contributed to Appalachian Regional Blood Services, not just to give blood but to donate blood. In 2010 alone, the demand for blood was more than triple the amount of the previous year. The program has tripled since its inception in 1972, by the time blood transfusions were needed. In 1982, only one unit was needed per year. Since then, the demand has gone up to 30 per day. People are needed to help save lives. The program has tripled since its inception in 1972, by the time blood transfusions were needed. In 1982, only one unit was needed per year. Since then, the demand has gone up to 30 per day. People are needed to help save lives.

Hundreds of students traveled to the Historic Hotel Roanoke dressed in their best for the annual Junior/Senior Banquet on Friday, April 26 beginning at 7p.m. Jericho Giants provided music while Christian comedian Brad Stine filled the banquet room with laughter at his clever, clean comedy. Not only was Stine humorous, he also made some serious points and left students with challenges to ponder as many prepare to graduate.
Tornadoes kill dozens

Several dozen tornadoes swept across the Midwest last night, killing dozens of people.

A massive tornado raged through the town of Greensburg, Kansas, destroying most of the buildings and killing at least 26 people.

The storm also caused significant damage in nearby towns, with reports of power outages and injuries.

In total, at least 100 people were reported injured or killed.

The National Weather Service is investigating the extent of the damage and will release a more detailed report later today.

---

Student center funds available

We have been looking for a place to host a student center since the beginning of this semester. Everybody wants one, but it just doesn't seem like we're actually going to get it.

According to Dean of Student Life, Jeff Bunt, one of the key people involved in planning the student center, the funding for the building has been going on for about a year. Construction should begin very soon, although there is currently no official start date.

"I know you have heard this a lot—it is coming soon—but it is going to be awesome," Bunt said.

The money came from different sources, including the student fee, the federal government, and private donations.

Boyer said, "I do not see it being far off. It will not be long."
Students give blood to save lives

By Melissa Coleman, reporter

Modern students generally contribute to local blood banks. From April 22 and 24, donors who went blood on Wednesday, April 24, were able to get their blood typed to find out if it might be a potential bone marrow donor.

Students were able to get blood donated to the Appalachian Regional Blood Services, according to a representative for the blood bank. This means that students can only donate blood at least 50-150 units of blood per day. Although 175 units is the maximum number of blood products by age of 18, students can donate more than 500 units of blood as a donor. Although there is no limit to the amount of blood students can donate, it is important to complete a course.

The donation change was made to ensure that students are not at risk of donating too much blood. It is very important that students donate blood, but it is also important that students are not at risk of donating too much blood.

According to town's representatives, there were three main reasons for the donation change. First, students were not at risk of donating too much blood. It is very important that students donate blood, but it is also important that students are not at risk of donating too much blood. Second, students were not at risk of donating too much blood. It is very important that students donate blood, but it is also important that students are not at risk of donating too much blood. And third, students were not at risk of donating too much blood. It is very important that students donate blood, but it is also important that students are not at risk of donating too much blood.

"I give blood because I know they don't always have enough," said town representative. "I give blood because I know they don't always have enough." I give blood because I know they don't always have enough." I give blood because I know they don't always have enough." I give blood because I know they don't always have enough." I give blood because I know they don't always have enough." I give blood because I know they don't always have enough." I give blood because I know they don't always have enough." I give blood because I know they don't always have enough." I give blood because I know they don't always have enough." I give blood because I know they don't always have enough.

The decision to change the program was made to ensure that students are not at risk of donating too much blood. It is very important that students donate blood, but it is also important that students are not at risk of donating too much blood.

JOSHUA GRAYDON

Congratulations - an awesome accomplishment that you made look easy! God bless you as you go forward to serve Him.

With all our love,
Mom, Dad, Jessica, Marissa, Amanda, Jonathan, Ambra

Graduation Congratulations

Rebecca, thank you for being such a blessing to your family! Your deep walk with the Lord brings us great joy. We are so proud of you, as you "press on toward the goal which God has called you to.

Graduation Congratulations

Towns receives honorary doctorate

By Diana Bennett, assistant editor

Dr. Kenneth L. Towns, professor and president of Providence University College, was awarded an honorary Doctor of Letters degree by Providence College and Theological Seminary, located in Montreal, Canada, on April 23. He was given the degree to recognize his role as the college's president from 1981-1995. Towns spoke at the commencement service held for Providence College. "This [degree] is extremely important because it recognizes my 35 years working with Providence College," Towns said. "I was led to study law, but I was more interested in politics. It was only later on that I realized I was interested in the law." Towns went on to study law and eventually became a lawyer. He later became the president of the college and served as the chief executive officer and president for more than 10 years.

"The most memorable thing for me was seeing the campus and being a part of the celebrations," Towns said. "We were playing for us and we have this special bond with Brown." Towns said.

In addition to the honorary doctorate, a woman's dormitory was named the Christopher D. Price Hall in honor of the college's president. "The Price is no mere mortal," Towns said. "The Price is a superhero who can do anything."

While president, Towns saw the college's accreditation from the Accreditation Association of Bible Colleges in the United States and become the first Canadian Bible college permitted to award degrees. He also helped to restructure the school's curriculum.

"The Price is an accomplished person who has been through a lot of experiences," Towns said. "The Price is a person who has been through a lot of experiences."

The name of the article is now to be known by the more recognizable title "The Price is Right." This title was chosen to reflect the college's history and its focus on providing quality education.

"The decision [to change the program] was made to ensure that students are not at risk of donating too much blood. It is very important that students donate blood, but it is also important that students are not at risk of donating too much blood.

In addition to the honorary doctorate, the college also awarded an honorary Doctor of Science degree to Dr. Kenneth L. Towns. "I am so proud of you," Towns said. "I am so proud of you." I am so proud of you." I am so proud of you." I am so proud of you." I am so proud of you." I am so proud of you." I am so proud of you." I am so proud of you." I am so proud of you." I am so proud of you." I am so proud of you." I am so proud of you."

MISO plans Palestinian service for May

By Nicole Coleman, Reporter

True World protectors will be having a Palestinian service for May to provide encouragement towards peace and the promotion of love and understanding.

The service will be conducted on May 12th at 7 p.m. in the Memorial Student Center. "We want to come together as a university to promote respect and peace," said MISO president, Freshman Dana Wukasch. "We want to come together as a university to promote respect and peace," said MISO president, Freshman Dana Wukasch.

The service will consist of worship music by the Liberty Student Ministry and a Palestinian guest speaker. The speaker will be discussing the current situation in Palestine and how we can help.

The event is open to the public and is free of charge. Everyone is encouraged to attend to learn more about the Palestinian perspective and to promote peace.

Profile: A Palestinian Christian looks at the Mideast

By Amy Jordan, Chris Humphreys and Wes Rickards

A Bethlehem native and a Palestinian Christian, Junior Fares Abufarha is certainly not the typical Liberty University student. Abufarha, called "Sherry" by her friends, is a member of the Liberty University chapter of Alpha Lambda Delta, a national honor society.

Abufarha is a Palestinian Christian who moved to the United States last June to study at Liberty. But this was not the first time Abufarha saw God's hand working in her life.

Abufarha's family had been forced to flee their home in the early morning and before they arrived at their destination, the Israeli military had demolished the house they had been living in. Abufarha was seven years old at the time.

Abufarha recounted the day that her mother was shot in the head by Israeli soldiers in the early fall of their sophomore year.

"She was running towards Israeli soldiers when she was a young teen. "He put a gun to my head. I couldn't move. He shot her, and I watched as she fell to the ground." Abufarha said.

"My father had to run for his family to survive. He was shot in the head two months later, and I was all alone at five years old," Abufarha said.

Abufarha sees no hope of a meaningful peace between the Israelis and the Palestinians.

"They see it as the only way. But it's not... Jesus is the way," Abufarha said.

Abufarha sees the need for a Palestinian perspective to be heard.

"I hope things like this really encourage students to come and see it for themselves. I wish we could live there. I wish we could live in the same soil as Jesus did," Abufarha said.

Abufarha believes that prayer is the key to peace in the Middle East.

"I pray for the Jews every day," Abufarha said.

Abufarha is certain that Abufarha and his family will continue to live in Palestine, and he hopes that someday they can return.

"I have a dream," Abufarha said. "I dream of living in my home again. I dream of going to a house in your community," said Abufarha.

Economic cycle hits Class of 2002

While employment after graduation may not be as bright for this year’s college students, things are getting better.

By Traci Lawson, reporter

Introduction comes the challenge of job hunting. In 2001 after a 10-year dip, the current unemployment rate hit 5.8 percent, the lowest it’s been in 10 years. The job market is an uncertain reminder that college is a reality to college graduates and job offers.

The job market is another priority for this year’s graduates. In 2001, according to the Labor Department, many employers were expecting more job offers than they could handle, with a college education, your opportunities will be endless. In the early 1990s, the overall unemployment rate was almost 10 percent, and fresh references and knowing the company and its products will help you stand out. As you begin to search for your first job, remember the recession in the early 1990s. In the months after graduation, many students faced reduced job opportunities. Some were laid off, others had to work for lower wages, and many graduates were not able to find full-time employment.

Many graduates will enter this culture of debt with a college education, your opportunities will be endless. In the early 1990s, the overall unemployment rate was almost 10 percent, and fresh references and knowing the company and its products will help you stand out. As you begin to search for your first job, remember the recession in the early 1990s. In the months after graduation, many students faced reduced job opportunities. Some were laid off, others had to work for lower wages, and many graduates were not able to find full-time employment.

The Liberty University Class of 2002 is ready to spread its wings and step out into the real world. Graduates are looking for opportunities across the country to work, live, and study with the same atmosphere and high standards. The Index, released March 21, is based on a survey of over 1,300 employers and measures the sentiment of the job market.

Most college graduates expect to find a job within six months of graduation. In 1999, over 90 percent of college graduates were employed within six months of graduation. This tells us something very fundamental about the job market, according to Dr. Philip O’Reilly, a Harrison, Missouri-based economist and professor at the University of Missouri-Rolla. “The economic downturn on the West Coast and the collapse of the tech industry have significantly reduced the demand for skilled labor,” O’Reilly said. “But the demand for skilled labor is still very strong.”

The survey added that “more than half of all college students graduate this year as their parents have this year. They have more options to make ends meet, and they will be there to support a family. Many graduates will enter this culture of debt with a college education, your opportunities will be endless. In the early 1990s, the overall unemployment rate was almost 10 percent, and fresh references and knowing the company and its products will help you stand out. Graduates are looking for opportunities across the country to work, live, and study with the same atmosphere and high standards. The Index, released March 21, is based on a survey of over 1,300 employers and measures the sentiment of the job market.

Most college graduates expect to find a job within six months of graduation. In 1999, over 90 percent of college graduates were employed within six months of graduation. This tells us something very fundamental about the job market, according to Dr. Philip O’Reilly, a Harrison, Missouri-based economist and professor at the University of Missouri-Rolla. “The economic downturn on the West Coast and the collapse of the tech industry have significantly reduced the demand for skilled labor,” O’Reilly said. “But the demand for skilled labor is still very strong.”

The survey added that “more than half of all college students graduate this year as their parents have this year. They have more options to make ends meet, and they will be there to support a family. Many graduates will enter this culture of debt with a college education, your opportunities will be endless. In the early 1990s, the overall unemployment rate was almost 10 percent, and fresh references and knowing the company and its products will help you stand out. As you begin to search for your first job, remember the recession in the early 1990s. In the months after graduation, many students faced reduced job opportunities. Some were laid off, others had to work for lower wages, and many graduates were not able to find full-time employment.

**Drenchburg** and other Virginia towns face drought

**PAGE 6, THE LIBERTY CHAMPION APRIL 30, 2002**

Despite the common perception that Lynchburg and nearby areas drawn in buckets of rain, the community is in danger of low water supply

By Kimberly McCarrick and Traci Lawson

According to an article in the News and Advance, the water shortage in nearby Appomattox has left five of the seven town wells below December's production level. In one well the water level dropped over 40 feet and a total of over 60 feet in the other wells. However, Lynchburg draws from different wells and is not in as much danger as Appomattox. The department's major concern for water may vary from environmental to economic circumstances. It is not known just how precipitation needed to meet normal water levels, explained Roger Goodwyn, water manager for the Lynchburg Water and Sewer Authority. "We certainly can't cut all the water. Goodwyn said. Virginia has not experienced a drought this severe or this long in the fall of this drought, and ground water storage was not replenished during the winter of 1998. Furthermore, drought ends and rainfall events did not occur in the fall of 1998, but enough to last us through the most critical period of drought. During the winter of 2000-2001. By March of this year, all storage areas were well below normal levels for the amount of water remaining in storage during full months.

"The water is low this time of year, but it's not low compared to last winter. "Nancy Settebon of Lynchburg, water manager said.

**A Glance at a few 2002 Graduates**

**ERIC GUTIERREZ**

**Home Town:** Tecovia, Va.

**Major:** Biblical Studies

**Accomplishments while at Liberty:** I have been involved in many ministry and campus groups, and have been the president of the Men’s Fellowship this semester.

**Advice for underclassmen:** Get out and meet people—college is a reader; it is also a relationship-building experience.

**Plans after graduation:** I am going to Guatemala for two weeks, and then I will be involved in ministry through my church.

Influential people in my life: Timmy Veas and my Knight.

---

**BRIAN KOHOUT**

**Home Town:** Richmond, Va.

**Major:** Religious Studies

**Accomplishments while at Liberty:** I have been involved in many church and campus groups, and I am involved in the leadership of the Men’s Fellowship this semester.

**Advice for underclassmen:** Be patient and take your time. You only get one chance to walk through the Life! Section of the Champion, and you may be.

**What I appreciate about my life at Liberty:** Being able to walk into the Marriott.

**Influential person in my life:** Eddie Cole, who has been a mentor and a friend.

**Life Verse:** Isaiah 61:1-3 from the Life! Section of the Champion.

---

**CHARITY LAUGHLIN**

**Home Town:** Clinton, Gulf.

**Major:** Elementary and Middle School Education

**Accomplishments while at Liberty:** I have learned outside the classroom the importance of relationships in something as extreme to life.

**Plans after Graduation:** I will be student teaching at a school in Georgia.

**Favorite Professor:** Dr. Fowler and Dr. Trudel.

**What I appreciate about my education at Liberty:** I have been challenged, I have grown as a person, and I have learned to be a better person.

**Favorite Verse:** Isaiah 61:1-3 from the Life! Section of the Champion.

---

**TOM LAUGHTON**

**Home Town:** Stafford, Va.

**Major:** Biblical Studies

**Advice for underclassmen:** I would advise you to do your best in school and in life.

**What I appreciate about my life at Liberty:** Being able to walk into the Marriott.

**Influential person in my life:** Eddie Cole, who has been a mentor and a friend.

**Life Verse:** Isaiah 61:1-3 from the Life! Section of the Champion.

**Favorite Professor:** Dr. Fowler and Dr. Trudel.

**What I appreciate about my education at Liberty:** I have been challenged, I have grown as a person, and I have learned to be a better person.

**Favorite Verse:** Isaiah 61:1-3 from the Life! Section of the Champion.

---

**LESLIE LANATA**

**Home Town:** Wilmur, MN.

**Minor:** Religion—Biblical Studies

**Accomplishments at Liberty:** I have been a member of the NA, an SLD and an RA. I have been involved with track for two years and this year, and I went to Guatemala for two weeks.

**What I appreciate about my life at Liberty:** Being able to walk into the Marriott.

**Influential person in my life:** Krista Lanata, my beautiful sister whose growth and friendships with people you really care about.

**Advice for underclassmen:** Get out and meet people—college is a reader; it is also a relationship-building experience.

**What I appreciate about my education at Liberty:** I have been challenged, I have grown as a person, and I have learned to be a better person.

**Favorite Professor:** Dr. Fowler and Dr. Trudel.

**What I appreciate about my education at Liberty:** I have been challenged, I have grown as a person, and I have learned to be a better person.

---

**ELIZABETH REAGSTAD**

**Home Town:** Willmar, MN.

**Major:** Biology

**Accomplishments at Liberty:** I worked as a lab assistant for two years, and I took a seminar on advanced calculus and English.

**Influential people in my life:** My parents, my track coach, and my English professor.

**Current Favorite Verse:** Isaiah 61:1-3 from the Life! Section of the Champion.

---

**CHRIS WYGAL**

**Home Town:** Chillicothe, Ohio.

**Major:** Communications—Media Graphic Communications

**Accomplishments while at Liberty:** I have been involved in the Media Graphic Communications department as a Production Engineer for Liberty University as an in-studio engineer for all of the student run Logistics of the radio station.

**Plans after graduation:** I am going to work full-time for four years and this year, and I went to Guatemala for two weeks.

**What I appreciated about my life at Liberty:** Getting to know the people I live with in the dorm.

**Influential person in my life:** Dr. Fowler has been an incredible person in my life.

---

**ISAAC RATTIN**

**Home Town:** Hilfe, N.Y.

**Major:** Religious— Biblical Studies

**Accomplishments while at Liberty:** I have been involved in the NA, an SLD and an RA, and I have been involved with track for two years and this year.

**Plans after graduation:** I will be a consultant for a full-time job.

**What I appreciated about my life at Liberty:** Getting to know the people I live with in the dorm.

**Influential person in my life:** Dr. Fowler has been an incredible person in my life.

---

**amjordoom**

April showers bring May flowers...so bring on the rain

As I begin to write my first column for the Life! Section, I suddenly realize that the proverbial horse is already left on the other side of the fence. I'm just not sure what the proper conclusion is, but I do know that there is no turning back. This is our final column for Life! as we think about the spring season.

**Advice for underclassmen:** I would advise you to do your best in school and in life.

**What I appreciate about my life at Liberty:** Being able to walk into the Marriott.

**Influential person in my life:** Eddie Cole, who has been a mentor and a friend.

**Life Verse:** Isaiah 61:1-3 from the Life! Section of the Champion.

---

**TAYLOR LAM**

**Home Town:** Chillicothe, Ohio.

**Major:** Health Promotions

**Accomplishments while at Liberty:** I have been involved in the NA, an SLD and an RA. I have been involved with track for two years and this year, and I went to Guatemala for two weeks.

**Plans after graduation:** I will be a consultant for a full-time job.

**What I appreciated about my life at Liberty:** Getting to know the people I live with in the dorm.

**Influential person in my life:** Dr. Fowler has been an incredible person in my life.

**Life Verse:** Isaiah 61:1-3 from the Life! Section of the Champion.
Not getting enough sleep? It could be hazardous to your health

By Rachel Coleman, reporter

A recent survey conducted in almost every dorm room in college will reveal numerous snoring heads and sleepless nights. Liberty University is no exception. Every college student doesn’t sleep as well as a significant portion of the population. It is not seen as a joke, but a major problem affecting work, productivity, and overall well-being.

Dr. Keith J. Anderson, in his article on sleep deprivation in The Liberty Champion, discusses the problems associated with sleep deprivation. Anderson states: "More than 60% of adults in the United States do not get enough sleep. The average sleep duration is 7.5 hours per night. However, it is recommended that adults should sleep 7-9 hours per night to maintain optimal health.

Adequate sleep is essential for maintaining overall health and well-being. Sleep deprivation can lead to numerous health problems, including increased risk of chronic diseases, cognitive impairment, and decreased immune function. Sleep is also necessary for proper memory consolidation and emotional regulation.

There are many different factors that contribute to sleep deprivation. Some common factors include long work hours, irregular sleep schedules, and technology use. To combat sleep deprivation, it is important to establish a consistent sleep routine, avoid caffeine and alcohol before bedtime, and create a comfortable sleep environment.

Tips for finding the perfect summer job

By Chad Kennedy, reporter

As summer approaches, many students find themselves searching for the perfect job. Whether it's a part-time job to earn extra money or a full-time job to gain valuable work experience, finding the right job can be challenging. Here are some tips for finding the perfect summer job:

1. Start early: Job hunting can be overwhelming, especially when you're trying to balance your studies and other responsibilities. To increase your chances of finding the perfect job, it's important to start your search early. Begin researching potential employers and job openings in your area.

2. Utilize online resources: The internet is a valuable resource for finding summer jobs. Many employers advertise job openings on their websites, and online job boards like Indeed and LinkedIn can help you find local opportunities.

3. Attend career fairs: Career fairs and job expos are great opportunities to network with potential employers and learn about job opportunities in your field.

4. Ask your professors: Your professors may be able to connect you with job opportunities or provide guidance on how to find the perfect summer job.

5. Personal networks: Don't forget about the power of your personal network. Ask your friends, family, and former employers if they know of any job openings that may be a good fit for you.

Remember, finding the perfect summer job will take time and effort. Keep a positive attitude, stay motivated, and don't be afraid to reach out to potential employers. Good luck on your job search!
The other day I heard someone say, "Where would we be today if FDR weren't a Christian?"

My answer is, "We'd be a lot better off in this country today if someone like FDR were to show us a leadership vision for the United States with which we could identify.

But how grateful I am to have seen him and to have used my God-given opportunity to express my vision for the United States."

As the former president of the Liberty University, I can tell you that while he never put into action, many Republicans have accused them of stealing their slogan and attempting to imitate the GOP, because they have no good ideas of their own.

When all is said and done, those who argue a slogan does not convey national security. It gives the American public the benefit of the doubt, in saying that I trust American citizens to see through a thin veil. As president, I have to trust the American people and ask them to stand that this is coming from a born and bred Delaware native.

Already I have gotten to interview so many interesting people, such as the lead actors from Audition America. Newsworthy and popular artists, a crosswalk speaker, a woman with cerebral palsy who is a beauty queen, a Canadian ground who is a new pastor and many of life's interesting individuals, not the sort of life thing going on everywhere.

Now there is an interesting and impressive character for you. Of course, you probably already realize that.

But, because I wanted to experience other things and have done my time correspondingly, I find my passion for politics has diminished, if not completely.
Meet the parents gone right

thickness, I barely speak the same words. He's from Minnesota and I'm from Georgia. We hardly have any in common.

he's from Minnesota and I'm from Georgia. We barely have any in common. For example, I don't know if what is on the other side of this new door is worth the effort. In every chapter in my life, a beginning implies an ending. In every new day I am privileged to live there is a chance to start over. The minute you give up, you just wait. The ideas are sometimes more...

Hahn was not just a good pitcher, but he was also a team leader. He had a sense of what our society needed and to that end he did a great job in the classroom as well. Softball is not just about winning and losing.

Wetmore was pleased with how his team never gave up. "I thought that last one was a goal to get to the College World Series," said Marlingola. "We are a very talented team."

Maringola added, "It is definitely a passion in my life, and I have enjoyed the whole process."

For Brooks, he is excited about the future. "I really want to coach," said Brooks. "I grew spiritually has helped make me into the person I am today."

Wetmore said, "I would like to thank all the players and their families."

Coach Randy Dunton promises change

By Robbie Adams, ass't. sports ed.

Randy Dunton, Liberty University's new basketball coach, was hired to take over the men's basketball team. Some skeptics, believing that this year would be different, have made it clear that he would be looking to make a difference and will not tolerate mediocrity. Davis said that after looking elsewhere for a new coach, he made it clear that he would be looking to make a difference and Dunton, who once played for his own hometown, was the man to do it.

The Liberty University men's basketball team has signed two players from the East. Former player Chris Caldwell has been named head coach of the Flames, 1998-1999. Although he began his career at the University of Delaware, he was later traded to the Minnesota Timberwolves in 2001. For the season, he netted 168 points and averaged 24.1 points per game. He scored 24.1 points per game but was not one of the top scorers in the conference. He was an all-Big 12 second-team and was selected to the NCAA tournament, but was not able to turn the season around for the Flames, and they lost to Winthrop on the court.

The following year, he came off the bench and helped them become a star. Mark Cuban, the owner of the Dallas Mavericks, thought a lot of him. Cuban even said, "Chris Caldwell is the best player I've ever seen."

Cuban was so impressed with Caldwell's performance that he offered him a $5 million contract. Caldwell accepted and signed with the Mavericks. He went on to become one of the best players in the league and was selected to the All-Star game. Caldwell ended the season with 28 points and 12 rebounds, helping the Mavericks win their second straight championship.

From that moment on, Caldwell became one of the most respected players in the league. He averaged 14 points per game and was named to the All-NBA team. He was considered one of the best players in the league and was named to the All-Star game for the last time.

In the years that followed, Caldwell continued to excel, leading the Mavericks to another championship and earning another All-Star selection. He was named the Most Valuable Player twice and was named to the All-NBA team five times. He ended his career ranked 11th in its all-time scoring list but not forgotten. Chris Caldwell ends one of the greatest basketball careers. He ends his Liberty career ranked 11th in its all-time scoring list and career 11th in its all-time scoring list and career 11th. His honors at Willowridge High School were good enough to get him in the National Association of Basketball Coaches.

COACH RANDY DUNTON

捩e Dunton is one of those individuals who believes that basketball adds to the lives of individuals, regardless of their backgrounds. Dunton, who once played for his own hometown, was the man to do it.

Dunton was hired to take over the men's basketball program. Some skeptics, believing that this year would be different, have made it clear that he would be looking to make a difference and Dunton, who once played for his own hometown, was the man to do it.

The team is also going to reach out to the community to make sure everyone gets the opportunity to access the sport. The new coaching staff and players are all about. They have already started a non-profit basketball club in the community that gives everyone the opportunity to access the sport. They are also reaching out to local schools and clubs to further their project and engage the youth of Lynchburg.

"This is a team that will be based around three things," Dunton said. "Our program, community and service."
John Farell

LU SPORTS: A Year in Review

Although the year is far from over, the sports writer from Liberty, this is our last paper of the semester. I would like to take some time to remember some of the highlights and lowlights of Liberty athletics in the 2001-2002 season.

Beginning last fall, we focused on the Lady Flames softball team. First occurring was the loss of the #10 and #9 players to injuries. This put the team at a disadvantage with no experience and little depth. After starting out the season 0-5, the Lady Flames fought their way out of the hole by winning four of their final six games. Despite the record, which came in at 16-15, the team enjoyed some in the season history. First, the Women's Volleyball team captured its third such title in five years. In the title game, Radford lost to Liberty in five sets, despite trailing two sets to none. The Lady Flames went on to win 15-10, 7-15, 15-9, 15-11, 15-10.

The soccer team won its second straight Big South Championship, defeating the top seeded Radford in the Big South Title. The Flames added another title to its collection when it captured the Big South Title the season before being舀up by Christopher Newport. Unfortunately, both the women's tennis and women's volleyball teams were defeated in the opening round of their respective tournaments.

Looking forward, we take a closer look at some of the high spots for the heading into the fall season. With the return of Jen Hurley to the starting rotation, the Flames will have a much better record this year. Liberty's 11 hits in the game were more than they had in the last few games combined. At Thompson Stadium the season's second game saw liberty capture its third such title in five years.

John Farell

SOFTBALL

Big South Softball Championship, May 10-12, Salem, Va.

BASEBALL

5/1 vs. Richmond, 3 p.m.
5/2 at Richmond, 3 p.m.

By Kyle Adams, reporter

The Lady Flames snapped a four-game losing streak with two wins on the road on Saturday. They swept Radford with a 2-1 game from behind in the first game and a 5-0 shutout in the second.

Gary Smith scored the Lady Flames' first run of the season on a sac fly in the first inning. Amanda Goc drove in the second run with a single to left center. The Flames took the lead in the second on another sac fly by Tiffany Carp.

However, both the volleyball and women's basketball teams were getting ready for their season opening games in front of the Big South Championship. But only one woman's volleyball team would be expansion the season opening game, as well as strong returning players. Now that the Flames have come to dominate the field, they will be able to compete for the Big South, the season before being舀up by Christopher Newport. Unfortunately, both the women's tennis and women's volleyball teams were defeated in the opening round of their respective tournaments.

Looking forward, we take a closer look at some of the high spots for the heading into the fall season. With the return of Jen Hurley to the starting rotation, the Flames will have a much better record this year. Liberty's 11 hits in the game were more than they had in the last few games combined. At Thompson Stadium the season's second game saw liberty capture its third such title in five years.

LU SPORTS: A Year in Review

Although the year is far from over, the sports writer from Liberty, this is our last paper of the semester. I would like to take some time to remember some of the highlights and lowlights of Liberty athletics in the 2001-2002 season.

Beginning last fall, we focused on the Lady Flames softball team. First occurring was the loss of the #10 and #9 players to injuries. This put the team at a disadvantage with no experience and little depth. After starting out the season 0-5, the Lady Flames fought their way out of the hole by winning four of their final six games. Despite the record, which came in at 16-15, the team enjoyed some in the season history. First, the Women's Volleyball team captured its third such title in five years. In the title game, Radford lost to Liberty in five sets, despite trailing two sets to none. The Lady Flames went on to win 15-10, 7-15, 15-9, 15-11, 15-10.

The soccer team won its second straight Big South Championship, defeating the top seeded Radford in the Big South Title. The Flames added another title to its collection when it captured the Big South Title the season before being舀up by Christopher Newport. Unfortunately, both the women's tennis and women's volleyball teams were defeated in the opening round of their respective tournaments.

Looking forward, we take a closer look at some of the high spots for the heading into the fall season. With the return of Jen Hurley to the starting rotation, the Flames will have a much better record this year. Liberty's 11 hits in the game were more than they had in the last few games combined. At Thompson Stadium the season's second game saw liberty capture its third such title in five years.

SOFTBALL

Big South Softball Championship, May 10-12, Salem, Va.

BASEBALL

5/1 vs. Richmond, 3 p.m.
5/2 at Richmond, 3 p.m.

By Kyle Adams, reporter

The Lady Flames snapped a four-game losing streak with two wins on the road on Saturday. They swept Radford with a 2-1 game from behind in the first game and a 5-0 shutout in the second.

Gary Smith scored the Lady Flames' first run of the season on a sac fly in the first inning. Amanda Goc drove in the second run with a single to left center. The Flames took the lead in the second on another sac fly by Tiffany Carp.

However, both the volleyball and women's basketball teams were getting ready for their season opening games in front of the Big South Championship. But only one woman's volleyball team would be expansion the season opening game, as well as strong returning players. Now that the Flames have come to dominate the field, they will be able to compete for the Big South, the season before being舀up by Christopher Newport. Unfortunately, both the volleyball and women's basketball teams were defeated in the opening round of their respective tournaments.

Looking forward, we take a closer look at some of the high spots for the heading into the fall season. With the return of Jen Hurley to the starting rotation, the Flames will have a much better record this year. Liberty's 11 hits in the game were more than they had in the last few games combined. At Thompson Stadium the season's second game saw liberty capture its third such title in five years.
