following three days of deliberation and a weekend of thought, the sga election commission on monday declared mark pettograsso the official sga president-elect. pettograsso received 966 votes, or 48.3 percent; eric hemati was third with an adjusted total of 82 votes or 4.1 percent. votes originally cast to the 608 from which candidates had votes removed from their returns.

jeff colman came in second in the official race with an adjusted total of 100 votes or 68.7 percent. kelly elkins was third with an adjusted total of 92 votes or 5.6 percent. the lines tested against the candidates lowered the total count from the 1,889 votes originally cast to the 608 from which candidates had votes removed from their returns. the largest new charge was an "indefensible action" of altering votes, one vote for each dollar over the spending cap, one vote for each dollar over the spending cap. the candidates who handled the campaigns so flippantly threw out the wishes of the voters. "i do plan to appeal," he said. the fledged candidate said that was not his understanding. "i don't think that we gamed the system. we had a very clear understanding of the election rules. i obeyed the spirit and letter of the rules." following three days of deliberation...

LU ad team places third in district
By JASON INGRAM
The Liberty University Advertising Team traveled to the Business Gourmets Inn in Raleigh-Durham, N.C., on April 11, to present their work for the annual National Student Advertising Competition. The team placed third out of eight schools and earned the incredibly strong Third District Challenge for the University of North Carolina Chapel Hill and the University of North Carolina at Wilson and Morehead City, N.C. The University of South Carolina placed first, followed only in the competition by the national competition in Kansas City. When June 14, USC has dominated the event for the last decade, winning the first place trophy three times in eight years. The trip marked the fifth time in the last six years that LU had placed third in the competition.

Congratulations Hodge!
It's finally true, the second biggest day in your life. It doesn't have to be the biggest. We're so proud of you. The day when you were singing, "We're turning back to Jesus," or getting your degree, or graduating from high school. We were not only so proud of you. We remember your first day at Liberty. We were proud to bring you home with us. (You were just riding home.) We're so glad you stayed. We're matched you grew and matured into a beautiful young woman that loves the Lord Jesus, ready for what God has in store for you. We love you today and today marks a beginning of a great life for you. We continue to pray for God's best for you and that you continue to follow His leading. A verse of scripture by Colossians 1:9-14 Mom and Dad

Professor Wharton joined the LU faculty in 1993 when the journalism major was launched. Along with her assignment to teach, she was hired to develop the new campus newspaper, the Liberty Champion.

Thanks to the Wharton and Hostettler donations, the media center has been remodeled from top to bottom. New computers and graphics software, including Quark X Press, have been added to a dedicated computer lab, a variable CD-ROM and LaserJet 4 printer. Thanks to the Wharton and Hostettler donations, the media center computers will be given to students in the College of General Studies as an academic advisor where she asks students on academic warning to keep them off of academic probation.

In November 1996, she graduated from Liberty's School of Education with a Master of Arts degree in Secondary Education.

Jill Hostettler, a member of the journalism faculty, was hired to develop the new campus newspaper, the Liberty Champion.

Speak with someone who cares and will help you.

Ask for Ruth (804) 832-2049.

COMS department to dedicate center

The naming of the print side of the media graphics production program of the Department of Communication Studies will take place in a special ceremony at noon Saturday.

The room will be called the Kirkpatrick Media Center at the request of the late Ann Wharton, who donated an entire graphics lab to the department last fall.

Wharton, 109-110 will include the presentation of two plaques, one for dedication of the department's Kirkpatrick Media Center at the College of General Studies.

Construction to begin on baseball complex

Final plans are under way for Liberty's new baseball facility. Construction on the new complex should be started by the middle of May or the beginning of June.

The new building will be an extension of the dugout on third base. A batting cage and a pitcher's mound will be added on the back of the building in order to provide more practice areas for the team.

The new complex will provide teams with locker rooms as well as a training room, training facilities, a batting cage, and public restrooms. Office area for the coaches and umpires is also included in the new complex.

The meeting room will provide a place for coaches to meet with their teams as well as a place for off-campus students to study in between practices.

"We really need that extra space," said Head Coach Johnny Hunton.

There have been problems in the planning process for the new complex. The original plans called for a two-story building and a pitcher's mound will be added on to the back of the building in order to provide more practice areas for the team.

The funding for the building has come mostly from private and business donations.

The first phase of the building will be the ground floor, which will contain the locker rooms and the team meeting room. From there, Hunton hopes that more donations will come in to finish off the project.

"When people see what your doing, you can get more done," said Hunton.

Administration analyzes Assessment Day results

By MATT SWINENHART
Editors in Chief

The annual Assessment Day survey results have been tabulated and the Office of Planning, Research, and Assessment has compiled two lists, one listing the top 10 strengths of LU and the other listing the top 10 weaknesses. The lists, along with survey comments, will be presented to President A. Pierre Guillermin, his Cabinet and later to the Board of Trustees upon their next visit in May.

"We don't want students to think this is worth­less," said Steve Foster, a research assistant for the school year in which students can voice their opinions to the administration.

The assessment process is not taken that way," Foster noted that the process is not entirely impossible to see something changed. According to Foster, changes have been seen in the dress and music codes in recent years.

"Our opinions to the administration will be presented to the Board of Trustees and the Office of PRA to decide what, if any, changes are implemented. Foster said that the Board of Trustees will make the final decision. The Board of Trustees does hold stringent guidelines and codes in recent years.

"We don't want students to think this is worth­less," said Steve Foster, a research assistant for the school year in which students can voice their opinions to the administration.
Harken brings messages, hugs to Liberty students

By JASON INGRAM

Beaumont, Texas, Businessman and 1982 Horatio Alger Award winner Tom Harken visited Liberty on April 14, addressing the student body during convocation.

Harken, who was diagnosed with polio at an early age, has delivered more than 500 speeches on overcoming personal adversities to the student body in convocation.

"I was a kid," said Harken. "There was no way they were going to get it."

Harken overcame his disability with the help of his wife, Melba. "Melba and I are very close," said Harken. "We have a baby... but I could not read." 

Harken's father moved out of the house because the ballroom had a more elegant atmosphere than a train with a lady on it," said Harken. "The hotel was also larg, so the students could walk around and mingle.

Lund was pleased with the number of students in attendance at the event and with their conduct.

"I was very happy with the turnout, with the attire and with the etiquette students," said Lund. "Everyone looked exceptional." 

According to Harken, the event took two months to coordinate and was paid for in part by the administration.

"The cost was more than what the estate paid for the tickets," said Barnes. "We really helped out on the cost of the banquet.

Barnes admitted that acquiring a musical artist was difficult due to the annual Gospel Music Association Conference, which was held in Nashville, Tenn., simultaneously with the banquet and performance of contemporary Christian performers.

"We had a lot of trouble getting an artist because of CMA, but Bawcom was really there for us," said Barnes. "They are really tight with CMA and they have been really good to us."

Liberty sponsored Bawcom's highly successful "Friday Night Rock" tour last fall and is currently sponsoring their "Love Revolution" tour as well. Lead singer Russ Lee spoke to the crowd between sets and offered words of wisdom to the graduating seniors in the audience.

"Don't put God's stamp on what you're doing and pretend that it is God's will," said Lee. "Seek Christ for your life and use your talents to do what the Lord has for you to do.

The banquet also provided the opportunity to recognize the accomplishments of the students in attendance.

"I love what you do for me, Dad, Mom and Family. I am black," said Harken. "I don't like it."

"I think we are educating coaches and players regarding NCAA and Big South compliance, preparing transfer students and handling their eligibility status and monitoring expenditures for each sport," said Lund.

"Rally-Car Performance, Camry-Like Quality" 

"Rally-Car Performance, Camry-Like Quality" 

"Rally-Car Performance, Camry-Like Quality"
It's finally over. Have a great summer, everyone!

Well, we're counting down the hours now. Another two weeks and we'll all be out here. This is the last issue of the Champion for this semester and we're winding things down in the office. It's feeling a little finalized, at least occasionally, and we're all looking forward to going home.

Texas is coming up; final projects, term papers, and end-of-the-year moratoriums are due. We're finding out that two and three o'clock in the morning are really hours after everybody, all of you, is going to bed. I guess you'll have to try hard for a break next semester.

Next semester we'll be back to the "old" class schedule. It's about 10 hours a week and in 10 minutes long. We'll take the extra weeks of classes, although a May 3 looks really good right now.

It's been a great semester in Liberty's history. The Lady Flames made us all proud during the Big South Tournament. The computer labs are being updated — however slowly. The RGA elections were competitive, and the fuse and our campus practices have made life interesting. The library's computer-aided reference services are coming up to snuff. Cresso has had some great speakers such as Tom Hanks and J.C. Watts. Billy Graham is coming in next semester and I think it's going to be a winner.

Summer's just days away — a chance to pay some bills, get some sleep, relax, read up on things you really want to learn. Lynchburg and spread out across the world. Most of us will be back next fall, but Liberty is basically a poor man's graduate school. The Champion staff is an editor-in-chief, a sports editor, and a editorial, among others.

Good luck to all the graduates. Hope you find a job soon. After four years of studying, learning and trying to survive, you've earned it. When you walk up to that diploma in front of family, friends and sometimes fans, savour it, slow down and realize what you've accomplished. A lot of people will never do what you did. Congratulations!

Jennifer Pliutti

For those students who are coming back, they won't see each other all summer long. For the next two weeks learning the ropes, or doing jobs, and I guess he's right! I'm learning how to paste-up the pages and edit copy, how to change page layout and do all kinds of other things. I'm having a great time already. It's easier than I thought I was learning discipline a college schedule has to offer. I'm really grateful to Mrs. Huff and the rest of the Champion. I'll be the opinion editor when next semester and my first time on this page!

I'm not entirely sure how to start this column. This is the last issue of the semester and my first time on this page! I've been working with Tom Hanks for the last two weeks learning the ropes, or rather the keyboard, of the Champion. I'll be the opinion editor when the column gets back to eating next semester so if I'm guessing properly, its going to be difficult. I'll try. Try to Lynchburg every once in a while. I can't remember all my calendar by Liberty's schedule for the middle of August. Lynchburg comes alive and then in May it suddenly gets really quiet. I know. I know you thought Lynchburg was pretty dead already! I guess I'm just used to it. The dead pace is sometimes interesting. It grows on you.

I started Liberty last fall and have shamefully skipped the fall. I'm a college student and I have to study. I really need to make sure that this fall I don't lose a lot of friends and relatives to the impact across the world this summer.

I'm learning the importance of following deadlines, developing a study and sleep habits, and following through on projects. To maintain the kind of GPA I'm looking for, I have to produce the best product I can. It's been tough, but I think I've been able to keep up with the class of 2002. Enough discipline for now! I'm ready for summer; take advantage of the summer; get a break; go get it! We'll see you next fall.

Billy Graham tagalite party? Why not?

Here's a suggestion — for what it's worth. How about a graduation tagalite party on Friday before homecoming? After all, it is the last big event for a lot of students. We think there might be a way to celebrate. For starters, maybe Students Life or some related organization could set up a couple of tables. Then well have to have food, maybe even a catered dinner. Let everybody walk up and say "hi"; it's the last chance for a lot of us to celebrate here.

Well, Billy Graham speaks and we all get a chance to meet him. We'll hear Billy Graham speak and see a lot of people get their sheepskins. People will realize that the pressure of unmovable deadlines (the exam finals) is gone. We'll have time to enjoy some things that we didn't have time for when school was in session. The Champion staff is an editor-in-chief, a sports editor, and a editorial, among others.

Good luck to all the graduates. Hope you find a job soon. After four years of studying, learning and trying to survive, you've earned it. Christians should judge themselves first

By RACHEL ELIZABETH

Conservative Christians like to take a strong stand against sin in issues that affect the political world, such as abortion. This is good, but we often forget the political consequences of sin, rather than the sin itself. This is important because we do not always judge God's will by focusing too much on its consequences.

When Christians overlook sin by focusing too much on its consequences, they look like hypocrites. Conservatives who have learned, conceptually or not, in a true understanding of sin, sometimes this creates another sin. Obviously, Christians don't intend to do this, it just happens when we don't make sin our main issue.

Take, for example, the question of abortion. Christians are correct when they say it's wrong, but if the focus is on the real end result in more abortions, how often do we hear preachers talk about the immoral girls who have babies out of wedlock? But having a baby out of wedlock is not the sin, marrying someone else is.

When Christians begin to focus on the sin, they become so obvious. Several Liberty students in one GSED class said that they thought most people who have been convicted of crimes shouldn't be released, that it's not only an unreasonable position, but it focuses on the wrong thing. Getting caught doing something illegal is not worse than cheating on your taxes, lying on your financial aid paperwork, or even speed- ing. Christians should not only look down on someone who is living with someone else, but they also break fellowship with them. But today's Christian? They don't apply the Bible to those who choose to sin, instead they look at the couple "doing sin". Aren't Christians supposed to judge others? They need to be clear with what are considered to be the normal hearts and minds now. Are they really judging others by their own standards of sin?

Obviously, Christians don't intend to do this, yet it happens when we don't make sin our main issue. When Christians begin to focus on the sin, they become so obvious. Several Liberty students in one GSED class said that they thought most people who have been convicted of crimes shouldn't be released, that it's not only an unreasonable position, but it focuses on the wrong thing. Getting caught doing something illegal is not worse than cheating on your taxes, lying on your financial aid paperwork, or even speeding. Christians should not only look down on someone who is living with someone else, but they also break fellowship with them. But today's Christian? They don't apply the Bible to those who choose to sin, instead they look at the couple "doing sin". Aren't Christians supposed to judge others? They need to be clear with what are considered to be the normal hearts and minds now. Are they really judging others by their own standards of sin?

When it comes to the issue of relationships, this is important because it affects the military. The Army has published a booklet explaining the rules of fraternization: "Relationships Between Soldiers of the Military Service. But today, it seems that the military is turning into what social scientists consider the Dating Game gone awry.

They need to be clear with what are considered to be the normal hearts and minds now. Are they really judging others by their own standards of sin?

When it comes to the issue of relationships, this is important because it affects the military. The Army has published a booklet explaining the rules of fraternization: "Relationships Between Soldiers of the Military Service. But today, it seems that the military is turning into what social scientists consider the Dating Game gone awry.
