Annual block party features The Afters

**Summer 2008**
The Afters (band) are an American Christian rock band. The band's name comes from the fact that the members are all in age. The group's name is derived from the first letter of each member's name: Andrew, Matthew, Michael, and Steven. The Afters' music is characterized by its upbeat tempo and catchy melodies. The band's first album, "The Afters," was released in 2008 and featured the hit single "This Is My Life." The band has since released several more albums, including "The Story So Far" and "The Afters Live." The Afters have gained a following among Christian rock fans and have been featured on various radio and TV shows.

"The show) was awesome. Lots of good tricks and some personnel talked," senior Adam Noonie said.

"It was undeniably the most exciting moment for our patients, the launch of the Liberty Snowflex Centre."
"It literally feels like you have been run over by a Mack truck," Lane said. "The symptoms of a fever, cough, sore throat, runny or stuffy nose, body aches, headache, chills and muscle pain are very common. People have been exposed by the antigens before, Hubbard said. However, he is not too concerned with the new strain."

Both the seasonal flu and the Novel H1N1 virus make you sick by attaching to human cells. "The newness of the strain of H1N1 is what makes it especially dangerous," Lane said. "There are new cases when an unknown form of the virus is able to bind onto a human cell and the immune system doesn't recognize the virus and the cell and reacts in a new way. Presence of Dr. Richard Lane of Liberty said."

The reason why so many people get sick with the H1N1 virus is because people have "not been exposed to the antigens before," Hubbard said. However, he is not too concerned with the new strain. Lane said that antiviral medications usually work on the new strain within 24 hours and those medications should continue to be effective until the arrival of the H1N1 vaccine in mid-October.

Lear was hoping to have 20,000 vaccines available to Liberty students, but because of production shortages, "only 8,000 vaccines will be heading to central Virginia," Lear said. "We have worked on the new strain within 24 hours and those medications should continue to be effective until the arrival of the H1N1 vaccine in mid-October." Iran's Forgotten Revolution

By Richard Baker

The People for the Ethical Treatment of Animals (PETA) recently posted a billboard of contradistinction in Logan Circle. It was cut because of Jackson's death, destroying the flow of information. Staying informed is important to getting the truth out. The media found that the truth is relevant to everyone. Americans, but also a great way to gain viewer ship. And it was right.

Unfortunately, just because I'm leaving doesn't mean I have to get everyone's attention for the state of their own world. As it should be. I've loved this nation, my whole life, but couldn't see it. I'm leaving, but I'm not leaving.

The People for the Ethical Treatment of Animals (PETA) recently posted an anti-commercial billboard campaign that targets some100,000 people. This billboard was for the animal rights group that had many people turning heads.

PETA's proponent was Lindsay, the spokesperson for the group who had been cut because of Jackson's death, destroying the flow of information. Staying informed is important to getting the truth out. The media found that the truth is relevant to everyone. Americans, but also a great way to gain viewer ship. And it was right.

One of my goals was to get up and attend the grand opening. Check. Attend a Liberty-style grand opening: check.

Concerts have always been a weakness for me, and the twenty-second story for the champion and get a byline. Play an intramural sport, or take it to the next level and participate in walk-on tryouts. Play ultimate Frisbee on the football field. Get a Milton milkshake. Play basketball. Take it to the next level and participate in walk-on tryouts. Play ultimate Frisbee on the football field. Get a Milton milkshake.

And if you are paying attention, you should be wondering what happened to it at all? And if you are paying attention, you should be wondering what happened to it at all?

Bakery has overstepped its bounds with this campaign. As a national organization, PETA has the largest and possibly only means available to the People for the Ethical Treatment of Animals (PETA) recently posted an anti-commercial billboard campaign that targets some100,000 people. This billboard was for the animal rights group that had many people turning heads.

For roughly two to three days, the national press covered what many advised called the six most incredible hours in human history since the Islamic Revolution of 1979. And all of this occurred with the world watching Twitter and Facebook. The government began its crackdown—all plans laid out, and the world right.

Sadie's forgotten revolution is a small and recent example of what can happen with the flow of information. Staying informed is not difficult but paying attention to the times that matter and staying with them is not only a sign of personal wisdom—it's a civic duty.

And if you are paying attention, you should be wondering what happened to it at all? And if you are paying attention, you should be wondering what happened to it at all?
A brief economic update

In Mitchell McAllister's opinion article, he argues that

"I am happy to report that the recession is officially over. After six quarters of economic contraction, the US and global economies have begun to grow at a moderate pace. However, inflation and deflation pressures have led to uncertainty in the market. The Federal Reserve has been cautious in its monetary policy, which has led to a volatile stock market.

Note: The Federal Reserve is the central bank of the United States and is responsible for conducting monetary policy and regulating banks to support the US economy."

A newfound remedy for Internet and gambling addiction

In his article, Mitchell Malcheff highlights the growing issue of internet and gambling addiction and discusses the need for personalized treatment.

"In addition, it is important to note that the World of Warcraft had 12.4 million players on any given day in October 2008, according to a report bycraft. com. With so many people playing, it is crucial to address the potential for addiction."

He was way cooler than me. (Matt and I started working at Starbucks together, and we became good friends. We decided to design our own band and start making music together there in the store. We would sing at customers' desks during breaks in between shifts and people would begin to gather around and sing with us. We started getting requests and people started to ask us to come back to work the next day just to sing. So we did.

On gaining popularity
Every single day that I can make music for my job, I just feel so blessed because there are so many people that never have the chance to do what they are passionate about or what they love for their job. I know there are so many great bands out there that never get to be doing what they love and they can't do it full time because of it. But I feel so fortunate for every single time I can play and share my music. When you are younger you want to know what your favorite song is going to be in the next year. It just kind of evolves.

On his favorite song from the newest album
Man, that changes all the time. Right now, I would have to say another one of my favorites is Ocean Wide. Although, we are recording a new record, so my favorite song is actually a new song. But Ocean Wide is a really special song to me.

On their upcoming project
Right now, we are writing and recording. We go into the studio Oct. 12th and Oct. 26th. We are writing some new songs. We are really excited about the new song. We have been working really hard on it, and we're perfectionists. We won't stop until we feel like it's our very best. We're pretty excited to put new music out.

On his most memorable moment
We have been through so many good moments trying to get what we really wanted. It's been one of those years where we've played a lot of different venues, and we've been working really hard and our dream was to make it big and have people love it. So when we were playing at the venue that we had been dreaming about for years, it was really cool to have people sing along with us. At that moment, I just felt like we were finally making it big. It just felt so good to be doing what we love and to have people love it. That feeling is just what makes it worth it to keep trying.

On making it in the music industry
I once stood in line in an Audio Adrenaline concert when I was 12, and I asked them the same question. The advice I would give is the same advice I received then, and that is to stick with it. Be good at what you do, practice and stick with it because the people who give up are the ones who don't make it. Most of the bands that you see that are huge have been working really hard for years. It's not like it's going to just fall off of the hat. It takes time to build up a fan base and really connect with people. They stick with it because they love what they do. We love what we do and we're really passionate about it. It is worth it to keep trying.

Jeff Scott's interview

General, by leading the way and being a shining example to students as a student-athlete, Violent reports. The Flames' football coach, Rocco has implemented Coach Rocco's leadership has been instrumental in turning the Flames into a winner and improving the program's overall atmosphere. Coach Rocco's style of leadership is characterized by a strong communication strategy, a focus on team cohesion, and an emphasis on building a family-like atmosphere within the program. Coach Rocco's ability to connect with players on a personal level has been a key factor in his success. Under Coach Rocco's guidance, the Flames have achieved significant milestones, including a 10-win season in 2006, which set a new school record. Coach Rocco's vision for the Flames has been to create a program that is not only successful on the field but also fosters a community of support and growth amongst the players. The Flames have responded positively to Coach Rocco's leadership, exhibiting a strong sense of commitment and unity. This culture of teamwork and dedication has contributed significantly to the Flames' success in recent years. Under Coach Rocco's leadership, the Flames have cultivated a strong sense of community and a culture of success on and off the field.

Jeff Scott's interview

In his first year at the helm in 2006, Rocco has implemented a winning culture and most recently led the Flames to an overall record of 10-2. This success has been achieved through a combination of strong leadership, strategic planning, and a focus on developing a winning mindset among the players. Coach Rocco's ability to engage and motivate his players has been a key factor in the team's success. Under Coach Rocco's guidance, the Flames have achieved significant milestones, including a 10-win season in 2006, which set a new school record. Coach Rocco's vision for the Flames has been to create a program that is not only successful on the field but also fosters a community of support and growth amongst the players. **Flames set for showdown with West Virginia**

Liberty's defense looks to remain stout as they prepare to face West Virginia. The Vines Center will undergo a major exterior facelift and interior renovation, with a new video screen, new seating, and improved lighting. The upgrades will enhance the overall fan experience at the Vines Center. The project will also improve the exterior of the arena, giving the Vines Center a new, modern look. The upgrades will include a new video screen, improved lighting, and expanded seating capacity. The project is expected to be completed within the next few years, with a new video screen and expanded seating to be installed as part of the renovations. The improvements will enhance the experience for fans and help attract new spectators to the games.

**Sneak Peek**

A sneak peek of the new facilities will be provided to the student body on Friday morning, with a slideshow on the improvements. The upgrades will include a state-of-the-art video screen, improved lighting, and expanded seating capacity. The project is expected to be completed within the next few years, with a new video screen and expanded seating to be installed as part of the renovations. The improvements will enhance the experience for fans and help attract new spectators to the games.

**Leading the Charge...**

Athletic Director Jeff Barber announced a $3 million improvement to Liberty's athletic facilities in the Vines Center. The upgrades include a state-of-the-art video screen, improved lighting, and expanded seating capacity. The project is expected to be completed within the next few years, with a new video screen and expanded seating to be installed as part of the renovations. The improvements will enhance the experience for fans and help attract new spectators to the games.

Tommy Beecher entered the season with a lot of uncertainty. He was almost certain about his decision to transfer from Liberty because of what he believed would be a very difficult transition to the Atlantic 10 Conference. Beecher was also certain that his experience at the University of South Carolina made him American football ready to go.

"I've been extremely impressed," Beecher said. "The weight room here is just as big as the one we had at South Carolina. Tommy continued. "I'm looking forward to getting there without anything." Beecher sailed through the weight room of his former school and Beecher was totally surprised at his weight.

Rocco said that when Beecher started his career at the University of South Carolina he played at the same level that Beecher now finds himself in early spring. And it was his mother who told Rocco that God had something else in store for him in football.

Beecher was immediately contacted by his former collegiate coach, Rocco. Rocco stated that the former University of South Carolina quarterback was one of the best quarterbacks in the state. Beecher was happy to see his old coach and to see that he had a decision to make.

"Before signing Tommy was one of the guys who was just another kid in front of everyone else," Rocco said. "What they were seeing was a new football team with new players. They were seeing a different guy, especially Mike Brown," Beecher said. "My class has been great. The new guy up front with Tommy is the key to our success, and the key to getting to the playoffs." Beecher had made the decision to transfer to Liberty and he was happy with his decision.

"Tommy is supportive of that. Tommy is here to work hard and compete," Rocco said. "He is so valuable in what we do here in football." Rocco feels Brown might need some time to get acclimated to the Flames offense, but he does see Brown at running back with Beecher at the receiver position. Beecher and Brown hope to lead the way.

"Mike is a big time playmaker," Beecher said. "He is an offensive threat and he does see Brown at running back. But Mike Brown is a big time playmaker, a playmaker every time he touches the ball." Beecher's experience at the University of South Carolina helped him get into the starting lineup and Beecher's intensity and focus that we have at Liberty, are going to be a big help.

"Our offense is full of playmakers," Beecher said. "I've been extremely impressed with the Liberty football team. I can't wait to get on the field and compete." Beecher has made a smooth transition to the Flames offense. Beecher has made a big time playmaker for the Flames offense, and Beecher's intensity and focus that we have at Liberty, are going to be a big help.

Vick sounded truly sincere, remorseful and human in almost every public appearance I've seen, which is why I believe he got his job back after serving time in federal prison, but he lost his job, his name and his reputation. He wanted to get back to his family. In essence, I saw the start of his personal redemption. Vick was going against all odds to make a tough team succeed.

"I regret the sense he wanted to do some great things. He wanted to be a role model to others, to help make a difference," Vick said. "I'll have to deal with that myself. I've learned my lesson."

The comments of the last few weeks, "I'm not the same guy, I'm not the same Vick," are on one hand refreshing, but on the other, they serve as a reminder of how Vick once was. Vick is the new team. Vick is the Liberty Pirates. Vick is the man.-by Brittany Barclay

**Giving Vick a (dog)fighting chance**

David Martin

The vanilla definition of kickboxing is high kicks, low kicks, uppercuts and uppercuts, but it's not all that easy to explain to my three kids. I have to make a lot of people into kickboxers. I'll be proactive within the team. I'll do it in a way that I feel is right. I've thought about what I did wrong, and I'll have to deal with that myself. I've learned my lesson. I've genuinely learned my lesson.

"I'm not the same guy, I'm not the same Vick," said Vick.

Student leadership starts off the new semester

Anna D. Sullivan | September 1, 2009

A sea of students clad in bright red shirts filled the Schilling Center for the week's massive move-in day at Liberty University. The good-natured student extras represented a section of Liberty's famed student.images and were ready to welcome any new arrivals with open arms. The students, dressed in every variation of red, were led through the center by a steady flow of professors and student assistants.

"I want our student leaders to be an example of the character and love that is displayed each day," said Katie Overbey, a sister dorm RA. "I want every student to be loved as well as taught.

The students on leadership are not in leadership just for discipline or obedience, but for their desire to lead," she said. "If they like you while they're talking to you and filling out their application, they can say, 'Hey listen, why don't we look into it a little bit more.'"

Tips for success in the new semester

Assistants (RA), 226 Spiritual Life Directors (SLD) and 1,000 Prayer Leaders (PL). The student leadership team is made up of these students and is devoted to the spiritual development of every student on campus, according to Campus Pastor and Vice President of Spiritual Development Deedra Carson. Each student leader is responsible for five students on his team.

"We train our leaders to train our leaders," Senior Assistant Professor Connie Schoffstall said. "Lack of attendance is what I feel hurts students the most. They just can't put in the time and a system for organization. They should form study groups or find others to study with.

"I want our student leaders to be an example of the character and love that is displayed each day," said Katie Overbey, a sister dorm RA. "I want every student to be loved as well as taught.

"The biggest and most important advice I can give is to study hard," Senior Assistant Professor Connie Schoffstall said. "Lack of attendance is what I feel hurts students the most. They just can't put in the time and a system for organization. They should form study groups or find others to study with.

Between silent still worship and raising the dead: The Glorious Unseen

by Tiffany Edwards

As a young girl, I wasn’t very interested in church. I didn’t really care about the in’s and out’s of growing up churchy and meeting people. I was interested in having a fun social life and meeting people who had something nice to say. But one night, I was driving home with my friend and we decided to attend a worship service. I wasn’t really interested, but she was a really great person and I wanted to do whatever she wanted to do. We went to a church that was right off the highway and as we walked into the service, I was surprised by how much I enjoyed it. The music was so uplifting and the service was really meaningful. I felt like I was part of something special.

After that experience, I started going to church more regularly. I found that I really enjoyed the community and the worship. I started to see that church wasn’t just about sitting in pews and listening to a sermon. It was about being part of a community that was passionate about their faith and about making a difference in the world. I started to see that church wasn’t just about going to a building, it was about building relationships with others who share your values.

The Glorious Unseen is a band that was formed by a group of college students. They started out as a worship team for a local church, but they quickly gained a following and started to write their own songs. They started to feel like they were making a difference in the world by sharing their faith and spreading the word of God.

I was really impressed by their music and their message. They were really passionate about what they were doing and it showed in their music. They had a unique sound that was hard to put into words. They were able to mix contemporary music with traditional worship and it was really effective. They were able to inspire people to look at the world in a new way and to see that there is hope even in the toughest of situations.

I was really impressed by this band and I started to follow them on social media. They were really active on social media and they would post about their upcoming shows and share their music. I bought their first album and I have listened to it countless times. It has really changed my life and I am grateful for the opportunity to have heard their music.
