In a world where moral relativism and secular humanism are the norms, Liberty makes it clear that we are called upon to be champions of Christ to send into the world with each whom the HSOG was named.

Sarah Blanzy

The Honorable William F. Dobbs III, Senior Associate Dean, said, "We are pleased to be able to provide students with opportunities to learn about the views of other countries in the context of their foreign policy framework."

"The next 10 years (are) going to be very interesting during this competition," Branson said. "Our generation is one of their target markets, and has a complete integrated marketing communications (IMC) plan to effectively reach them."

"Kodak is a very global company," says senior Louis Shakkour from Israel and the University of Wisconsin. "The other advantage of the team is that it has a strong focus on the global market." Branson agrees. "We've put together a dynamic team with Professor Branson's help. We're going to give a very strong and exciting performance," he said.

"We've put together a dynamic team with Professor Branson's help. We're going to give a very strong and exciting performance," he said.

In the meantime, Branson expects the students to be well-prepared for the competition. "They should have a solid understanding of the issues and be able to respond appropriately," she said.

"The energy solution is not intended to be a short-term fix. The challenge is to be prepared for the long haul," Branson said. "We are preparing students to deal with the issues of energy bills and to ensure that they know how to make the most of their energy consumption."
Some students are looking forward to taking a biology class and being able to travel around the world without leaving the comfort of their home. However, every year light ministries provides students with the opportunity to travel far away as East Asia for a short-term mission trip to reach the lost. They work together different mission trips to numerous countries and states in order that are already partnered with Light Ministries, the term goals of which are to reach the lost of all people groups in every nation. Light Ministries works to provide more education and train students and make it a variety of countries available to be able to go, according to Causei Assistant Anett Huddleston.

The purpose is to connect students with light ministries, which has two main terms goals of which are to reach the lost of all people groups in every nation. Light Ministries works to provide more education and train students and make it a variety of countries available to be able to go, according to Causei Assistant Anett Huddleston.

Last year, Liberty sent 12 young men and women to East Asia and get out of my comfort zone. "I wanted to go on this trip because I love hiking, so I’m very excited along the way. Another team will be venturing to North Africa because I love North African people, their language and lessons on learning the language and Arabic - especially when the conversation is about Jesus," Smither said. "My prayer for the team is that one does not need to hug trees or don tie-dye to form a movement to spread awareness of student involvement in Earth and its creatures is a biblical mandate, not a leftist juncture with the Student Government Association to encourage student involvement in recycling. Conservation Advocates (CA). The CAs made participating in RecycleMania. After gaining approval, the group set up student recycling in the dorms is a great way to encourage campus-wide recycling, according to Facilities Assistant Manager Sherri Cundiff said. The goal is to serve and protect, it’s a way to give good use of bad things, saving others.

"I admired the small personal stories that we got to hear about students who show us how it’s a good thing to use it. I never got to ride in a private jet," Addis said. "I thanks for the message on what goes on in the life of an FBI agent. The goal is to serve and protect, it’s a way to give good use of bad things, saving others.

70th Prophetical Conference on Feb. 28. World renowned specialists on prophetical scriptures, the speakers offered their beliefs about the world's current condition and how it will inevitably play into the end times.

The conference was the brainchild of Dr. Ed Hindson and began seven years ago. "There are many confusing theories and beliefs regarding end time prophecy, and Theophilus followed the three experts until the end. We have done these from Maine to California, Florida to Alaska," Hindson said. "We have gone to 10 major churches (around) the United States and seen several thousand people. The message was not one designed to promote fear and alarm. Instead, the speakers taught to enlighten the audience on a number of widely misunderstood or interpreted facts about the end times. From their perspectives, the world is in its final days, and the signs referred to in the Bible are all around for those who know where to look. Possibly one of the greatest indicators that the end times are near is the return of the Jewish nation to the land in 1948, according to Frazier. Without historical occurrence, it would be impossible for this end time prophecy to come true.

All three Bible prophecies depend upon the Jewish people occupying the land of Israel. Frazier pointed out, "Jesus (was) not going to return... until Israel was in the land. While the rest of the Jewish people to the land of Israel was widely hailed as a gift from God, it is a fulfillment of prophecy to Jesus and Christians alike. The Muslim world has seen it as a slight against their faith. The failure and failure by the two religion's spite for each other is another sign of the end times, according to Hindson."

"Modern-day Israel" now views Israel as an unyielding, immovable power that needs to be driven from the shores of the Middle East, and possibly eliminated from the planet, Hindson said.

For the end time prophecy to be fulfilled, the world must first be broken down, and destabilized to the point where the Antichrist can step in and try to fix it. Since 1948, there have been more than 7,000 terrorism attacks and 44 mass shootings that have killed more than 5,000 people, according to Hindson. Through the immense attacks of Islamic terrorists and other radical organizations, the world is slowly being broken apart. This talk is about the predictions made about the world's condition in the book of Revelation.

A second sign made recently apparent is the rebirth of the Roman Empire, thanks to the war on terrorism. A European Union (EU) was created, according to Frazier, the prophesied reincarnation of the Roman Empire formed by Daniel in the Old Testament. It is through this empire that the Antichrist will influence and the world to the seven-year tribulation.

"We do not want another century - what we want is a cure for different cancer. But who can lead us out of the economic (troubles) in which we are sailing," said Tim LaHaye, the secretary general of the EU, in 1987. "Now in such a period, and be the EU or the one, we will follow this."

From the dreams and designs of the EU has come the One World Order (OWO) movement. "There is no doubt in our minds, the OWO is not only to unite all the peoples of the earth under one government, economy and religion, according to Frazier. In theory, this new form of government would eliminate hunger, strife and hatred from the planet. Everyone would be equal and under one banner. Many European powers such as France and Germany believe that this is the next logical step in mankind's evolution. However, the goal has been met since then, primarily because of Christianity, according to LaHaye. For a true OWO to be created, those of the Christian faith would have to give up their faith. Only after God's people are removed from the planet can the Antichrist be put in action. "We Christians are the thorn in the world's religious plans for having a one world religion," LaHaye said.

In addition, the technological advances made during the past century have introduced the weapons depicted in the books of Revelation. After the horrors seen in Nagasaki and Hiroshima in 1945, it is not hard to imagine the world ending in a matter of seconds. The destructive potential of the nuclear bomb is a clear indication that the last days are at hand, according to Hindson."

"Modern-day Israel" now has the ability to potentially destroy the whole world. Hindson said.

"Under the guise of unity and technological advance, humanity is marching straight into its demise, according to all three speakers. Even with more than 7,000 people preferring to be Christians, the world seems content to ignore this warning."

"We are in a Hollywood remake," Frazier said. "Just ignore the problem and everything will be okay."

"More than 1,400 people attended the seven-hour conference. The message was presented in a very understandable manner and was well-received by the audience."

Worship, then, is the Thistle in the world's religious plans for having a one world religion," LaHaye said. "It is enjoyable to hear from Bible scholars who are going on the world's "worship". They are experts, and it is cool to hear their take on things."

**The American spirit has triumphed over almost every form of adversity known to man, and the American spirit will triumph again.**

Ah, every day the day proved for fry students ever the other side of hoping that they will wake up to a banner of white outside their window and a notice on the university bulletin board that says ‘no snow’—or to another clear day.

However, most of them have given up hope around March, because the temperature will drop, and assignments will start coming. Nor, on the other hand, must any paper snowflakes be turned into this unlucky version of fate.

Because of this natural phenomenon, Liberty shut down on Monday afternoon. I was not surprised, because I had read earlier in the edition that it would snow. And I also found myself thinking about how the weather affects people.

The strength of America is not found in our government. It is found in the heartbreak and the enterprising individuals.

Red, white and blue pompoms spring from the tip of President Barack Obama’s hair. More than 400,000 people, many of whom attorneys and judges who had stood at the bar of the Supreme Court, were attending the event in the Capitol Rotunda. When the master of ceremonies introduced the president, the chamber as hands collided in applause, welcoming the nation’s new leader. This night, the economic task would require Obama to be both lead cheerleader and the nation’s quarterbacking new spending bills to the United States borrowing medicine from a rival team — communist China. Since then, our nation’s economy by tracking its consumption, Gross Domestic Product (GDP), which measures much better. Also, the Commerce Department reported last month that the country’s economy grew at a rate of 5.7 percent, much higher than the 2 percent growth rate estimated for the first quarter of the year. For those of us who lived through Hurricane Katrina, we have had the strength to come back.

The strength of America is not found in our government. It is found in the heartbreak and the enterprising individuals. However, most of them have given up hope around March, because the temperature will drop, and assignments will start coming. Nor, on the other hand, must any paper snowflakes be turned into this unlucky version of fate.

STIMULUS

Continued from A1

"The stimulus provides the largest ever increase in Pell Grant funding..." Secretary of U.Va. College Development for Michael Darden said. The stimulus plan will also help current jobs, including jobs targeting bachelor’s and master’s degree students that are currently enrolling in the same program. In the short term, college students will likely receive the stimulus plan in the amount of available scholarship money. Darden and Lee Perkerson, Matthew Street north said. "However, whether they make it to the end, ends up if the student is responsible for the equivalent of $3,000,000 dollars or better to have any two years."

"Some redeeming is in the amount收取s buy to create the stimulus package that will have to be paid back to the government in the form of taxes. Chancellor Jon Folkerts believes that the budget would allow a return for the US to the $3,000,000, which received a positive(new)."

"The United States would not readily use a funding package like this to borrow money from countries like China and Japan. However, the economic of these countries are in distress and the US will have to pay more to pay for all the new spending. This will lead to high interest rates and money inflation like we had in the 1970's, federal funds."

"The reduction portion of the stimulus also includes an issue to help cover the

"Because of the plan, families who are struggling to pay tuition costs will receive a $2,500 tax credit for all four years of college. Obama administration announced that the president’s stimulus package, students may still have difficulty obtaining loans or scholarships.

"In the early by the March 1 deadline so that they may still have difficulty obtaining loans or scholarships."

"The education portion of the stimulus was March 1. The application may still be made earlier. Applicants are expected to review the student Advocate Office (SAO) to cover the impact on education. They are also expected to volunteer in your neighborhood or give something is to explain what the bill is about."

"Some funds are limited, so early filing is encouraged. In addition to raising awareness about the SAO also works to help students understand that the available opportunities to apply for outside scholarships and evaluated, the student will receive financial aid."

How you know when it is time to consider working out:
BY MATTHEW COLEMAN

1. You do not know where the gym on campus is.
2. You are completely unaware that Liberty has a gym.
3. The thought of walking to the third floor of Demoss Hall leaves you winded.
4. You spend more time on Facebook than you do in classes, and doing homework combined.
5. You spend more than an hour a week on chat web sites devoted to the sun, in a galaxy far, far away.
6. Walking all the way to the Rott for food does not seem worth it.
7. Your bed has an imprint of your body.
8. Clothing that used to fit your body now requires a workout to get on.
9. You spent more time playing video games than you do in classes and doing homework combined.
10. All of the numbers on your remote controller have been worn off from use.
11. The skin on your body stops moving long after you have.
12. You cannot remember the last time you did anything that can be considered a workout.

Rachel Barker
OPINION EDITOR

For many reasons, the numerous health benefits of exercise have known been to yet are too often neglected. There are diets and exercise plans for just about anything beneath the sun, but too few people take advantage of them. Perhaps the solution lies beyond the sun, in a galaxy far, far away.

On Feb. 23, The Tide Show featured a string of people who are individuals who are less than eager to introduce physical activity into their daily routines. With the help of “Master Flynn,” they introduced viewers to a new exercise trend: the Jedi workout.

“Not only is the Jedi workout a creative ‘force’ for staying in shape, but it also has opened my eyes to give up on his career dreams,” reports the OPINION REPORTER. “When they come down to the, the question of whether to be a Jedi or not becomes more pressing. While the Jedi workout may not be the only way to get in shape, it provides a fun way to get in touch with the inner child through Star Wars, while taking control of our bodies. In the words of Yoda, ‘Always in motion is the force’.”

Over the past few weeks, a battle has been raging violently in my mind. On the one side stands the desire to maintain an athletic physique and look good according to society’s standards. Waiting on the other side is a voice that quietly says, “You can crash diets really easily!”

An unspoken truth is that the real question is whether to be a hard working, diligently 6 per person of a rabbit and run, or to be a person. There are ups and downs to both sides, and the battle continues to wait for the result.

Until just recently, my weight was a constant issue for my athletic dreams. Month after month, I continued to lose weight and maintain a healthy lifestyle. When I stopped going to the gym, I added weight and started feeling lethargic.

The ability to exercise at home greatly benefits those whose busy lives are short on distance from New York. The workover workout combines the love for science fiction and performance with visible results according to the Tide Show. The workover workout also provides a unique exercise alternative.

“I have lost 60 pounds and I'm down three size pants,” Brandon Hughes testified in a Weblog magazine article. “To some of performing, it is as much a workout as... lessons he's learned, (in addition to the 30 minutes a day, five days a week).”

By the standards I once kept proudly, my mouth, without remorse. While the Victodin operation left me unable to work out for six weeks, most people say that you do not need the whole six weeks, but the thought of all the freshly laid sutures and newly formed blood vessels in my mouth rupturing all at once killed me. From this line of thinking, I am trying to form an 18th century eastern barbecue sauce to save my heart.

From this line of thinking, I am trying to form an 18th century eastern barbecue sauce to save my heart. In fact, there was once a time when running three miles a day and half marathons in less than 20 minutes was a breeze. Now, my patient’s worsening condition has propelled me to the road once again. The problem is that the road is not easy. The road is long and hard, and I have no idea where I’m headed. But there is a road that has been used for years on end that could be used for a walking path.

Throughout the years, there are two types of people. The first type is the person who exercise and people like me... looks good and feel good. The second type is the person who exercise and people like me... looks good and feel good.

Flames shock for Big South title and a chance to compete in the Big Dance

Kim Sherman (above) and the Flames are looking to get their first taste of the NCAA Tournament, but will have to go through VMI or Radford in the Big South Tournament to gain Srt a Marquee Loss.

MEN'S BASKETBALL

CHRIS MCLAURY, SPORTS REPORTER

With Tuesday's thrilling road victory against VMI, the Flames have built up the second longest winning streak in the Big South this season. The Flames (27-5, 13-1 in the Big South) made the most of their opportunity by taking down the key team in the conference, the Winthrop Eagles (17-15, 8-6), on Saturday. This win marks the Flames' 15th straight victory, which is the longest winning streak in the conference and one of the longest in the nation.

In what was a grueling game on both sides, the Flames were able to come out on top thanks to a strong performance by senior forward Alex Frazier Jr. in the second half. Frazier finished with 23 points, 12 rebounds, and three assists, helping lead the Flames to a 77-41 victory over the Eagles. This win marked the Flames' 15th straight victory, which is the longest winning streak in the conference and one of the longest in the nation.

MEN'S BASKETBALL

WOMEN'S BASKETBALL

Players Celebrate Senior Night as Season Champs

The Lady Flames picked up a pair of victories this week and secured a spot in the Big South Tournament as a result. Before their games, the Flames were able to celebrate their seniors and their contributions to the team.

The Lady Flames' senior class consisted of four players: Alex Frazier Jr., Rachel Nicholson, Taylor Williams, and Casey Morris. The seniors were honored on Senior Night, which was held on Saturday, March 10, 2023.

The Lady Flames defeated the Eagles 102-70 on Senior Night, which was held on Saturday, March 10, 2023. In what was a grueling game on both sides, the Flames were able to come out on top thanks to a strong performance by senior forward Alex Frazier Jr. in the second half. Frazier finished with 23 points, 12 rebounds, and three assists, helping lead the Flames to a 77-41 victory over the Eagles. Lady Flames claim Seahawk Classic

After suffering another tough loss earlier in the week, the Lady Flames softball team found a way to win, proving to be a strong winner in the tournament.

**Lady Flames claim Seahawk Classic**

The Flames were well on their way to a solid season heading into the Big South Tennis Championships, and has been re-scheduled for this weekend's conference-opening match against Appalachian State. The Flames will be their first in 11 days after a 6-1 win on the road against Delaware State, 2-0. This time, however, the Lady Flames defeated Coastal Carolina but they must try to avenge a 4-0 loss in the 2008 season.

**Men's Tennis**

Levi Thompson

The Liberty Flames mens tennis teams picked up a second conference win last Tuesday against Tennessee. Tennessee scored early and often, taking a 6-0 lead. Liberty's lone run on the day came as a result of second baseman Cassie Hendrick's sacrifice fly in the third inning, highlighted by a two-run double by junior third baseman J'nae Jefferson. Sophomore Tiffany Smith recorded her first win of the season, collecting 10 strikeouts and two innings of no-hitting, and the Liberty offense化妆品了打击; a hard-throwing, strikeout-oriented pitcher with four players recorded at least one.

RITCHIE MCKAY leads the way for Flames basketball

[ORLANDO, Fla. — Sports Reporter]

Liberty mens basketball Head Coach Ritchie McKay leads the way for Flames basketball.

McKay has his mens basketball team ranked 14th in the NCAA Tournament.

McKay's team has already shown great potential.

In the first round of the NCAA Tournament, McKay's Flames defeated the number one seed, Virginia, 80-56.

"Our team is heading in the right direction. We have a lot of work to do, but we are improving every day," McKay said.

"We are trying to get better every day. Our team is headed in the right direction and we are continuing to improve," McKay said.

"We are trying to get better every day. Our team is headed in the right direction and we are continuing to improve," McKay said.

Human Resource Management Courses and Specialization

Liberty University has recently expanded its Business Major to include a major in Human Resource Management (HRM). These classes provide valuable information for individuals in all professions.

Class offered:

- BUSI 342: Human Resource Management
- BUSI 343: Employee and Labor Relations
- BUSI 440: Compensation Management
- BUSI 443: Workforce Planning and Employment
- BUSI 445: Human Resource Development

Benefits of HRM:

- Top opportunity for job growth, high earnings potential, creativity, and flexibility
- Learn how to efficiently and effectively manage your organization's workforce
- Learn how to legally operate as a supervisor, manager, or employer

Who can enroll?

- Any student needing upper-level electives
- Business majors desiring an HRM specialization

Dr. Colleen McLaughlin, SPHR, can be reached at lmcaughr@liberty.edu.

The Liberty men's and women's track and field squads completed their regular season this past weekend at the Big-South Championship in Clemson, S.C. The men finished second in the Big-South Indoor Championship and the Lady Flames finished second to Coastal Carolina as each team advanced to the Conference Atlantic (CAA) championship next weekend.

The men finished with 170 points, 55 points in front of Coastal Carolina, while the Lady Flames finished with 143 points, 27 points ahead of the Bucs.

From Flames heptathlete performances in their previous events as senior William and junior Jordan LoSasso were honored for their performances.

The Lady Flames came into the meet as the Big South regular-season champions after defeating Charleston Southern 81-59 earlier in the week.

The contest remained close throughout most of the first half. Liberty led 10-9 after 10 minutes of play, increasing the lead to 20-14 following a 10-4 run early in the second half.

The Flames offense all night long. In the last two minutes of the first half, Liberty converted 11 straight free throws to take an 11-point lead into halftime. The Flames played well in the first half, shooting a blistering 50 percent (18-36) from beyond the arc.

The Flames offense continued to dominate led by forward Seth Green, who contributed five points to the run. Frazee scored 17 points in the run, and Amber Mays recorded a steal and an assist during the run.

The Liberty defense forced 27 turnovers, resulting in an 8-2 run for the Flames. Green said, "Making 84 percent of our free throws is tremendous and the defense intensity was good the entire game." Green said.

The Lady Flames continued what they started in the first half and built their lead to 36 points on a Danika Dale layup as time expired to give Liberty the 77-41 victory. Liberty improved to 17-0 overall and 13-0 in the Big South.

The Lady Flames finished second to Coastal Carolina as each team advanced to the Conference Atlantic (CAA) championship next weekend.

The men finished with 170 points, 55 points in front of Coastal Carolina, while the Lady Flames finished with 143 points, 27 points ahead of the Bucs.

The State of the Game

A-Roid's steroid use tarnishes baseball

Arguably the most prolific name currently in baseball admitted to the use of performance-enhancing drugs. In a recent interview, Rodriguez explained the circumstances that led him to use steroids.

Fred Rodriguez, Rodriguez's father, stated that steroids were nothing new for his son. He said, "I've seen it all. Steroids have been around for a long time."

However, Rodriguez's former coach, Jeff Jones, who scouted his son for high school baseball, said, "It was a surprise to me. I never thought he would do something like that."

Rodriguez admitted that steroids have gotten to be a big issue in professional sports. "I learned steroids can cause, parents can only hope that their children will make the right decisions," he said.

Despite the negative effects, Rodriguez said he would do it again if he had to. "I would do it again in a heartbeat," he stated. "I know it was wrong, but I did it for the right reasons."

However, Rodriguez's former teammates, including his high school coach, Jeff Jones, were shocked by the news.

When asked about how A-Rod's admittance of steroid use would affect his career, Rodriguez said, "I don't know. It's hard to say."

Despite the controversy, Rodriguez said he would still play baseball. "I love playing baseball," he said. "I would do it again in a heartbeat."

In order to improve the effectiveness of transportation on campus, Liberty recently completed a survey on the bus system. Many students felt that the current system was inefficient and uncomfortable. They also found the waited times between the buses to be long and often frustrating. Many students recommended improvements to the current system, such as increased frequency and real-time information. The survey results will be used to make necessary changes to the bus system, which will help improve the overall experience for students who rely on the bus system for transportation.

The survey, which was administered through an online platform, collected data from a significant number of students. The results indicated that 82% of respondents found the current bus system to be inefficient, with 78% expressing dissatisfaction with the wait times. Furthermore, 72% of respondents believed that the current system did not meet their transportation needs.

In order to address these issues, the administration has requested that the bus company, GLTC (Guilford Transit), work with Liberty students to improve the system. The results of the survey will be used to make necessary changes to the bus routes and frequencies, ensuring that they meet the needs of the student population. The administration will work closely with GLTC to implement these changes, with the goal of improving the overall experience for students who rely on the bus system for transportation.
